

Davidson College

1981-82

CAPSULE INFORMATION

A private, liberal arts, church-related, undergraduate college.

Coeducational since 1972. Founded as a men's college in 1837. On-campus enrollment for 1980-81 was 1,352.

A strong, teaching faculty of just over 100 persons, 88 percent of whom hold earned doctorates.

Offers the Bachelor of Arts and Bachelor of Science degrees. An unusually high percentage (about 80 percent) of those who enter as freshmen obtain a degree from Davidson. Approximately 70 percent of Davidson's graduates go on to graduate or professional schools.

A residential college with a strong sense of community; a church-related college with opportunities for spiritual growth; an informal college which encourages student-faculty contact.

An honor system governs campus life and sets a tone of trust, responsibility, commitment, and personal freedom.

The school year is divided into three ten-week terms (see calendar, opposite the Table of Contents). Normal course load is three courses per term.

The comprehensive fee for 1981-82 is \$7,075. This includes tuition, room rent, meals (two plans available), accident expense insurance and routine medical care, laundry (sheets are furnished), and activity fee.

VISITORS ARE WELCOME at Davidson. Visitors desiring interviews or tours are urged to make appointments in advance. Write the Office of Admissions and Financial Aid, or telephone (704) 892-2000.

The etching on the cover is one of a series depicting 50 historical places in North Carolina, executed by Louis Orr, American painter and etcher and Officer of the Legion of Honor, whose dates are 1879-1966. It shows Eumenean Hall, built in 1849 as part of the original quadrangle at Davidson College. The building, which currently houses the department of theatre and speech, was added to the National Register of Historic Places in 1972. A complete set of the Orr etchings is on display in E.H. Little Library.

EDUCATIONAL PROGRAM

Note: While every effort is made to revise each year the information given here on the educational program, changes are often made by departments and the Faculty in the winter and spring after the catalog has gone to press. Enrolled students should plan their programs in accordance with the Academic Regulations issued by the Registrar's Office each fall.

AN OVERVIEW

Davidson's educational program is designed to help students develop the art of thinking. It offers a wide variety of experience within a broad range of subjects.

The student is introduced to a curriculum divided into four general areas of study:

- I. Language, Literature, and the Fine Arts
- II. Philosophy and Religion
- III. Natural Science and Mathematics
- IV. Social Science

Students choose at least three courses from each area, thus becoming acquainted with these four approaches by which humanity has sought understanding of the world and of itself.

To encourage the excitement and self-discipline that come from probing a subject in depth, the college requires a major in one of the following:

Art	German	Premedical
Biology	History	Psychology
Chemistry	Mathematics	Religion
Classics	Music	Sociology
Economics	Philosophy	Spanish
English	Physics	Theatre
French	Political Science	

The college also offers courses, but no major, in Education, Humanities, Military Science, Physical Education, and South Asian Studies.

Within the framework of area distribution and the major, the student may pursue a wide variety of options. *Independent studies* offer the opportunity to work within

the major on projects of special interest, to work on topics of special interest outside the range of the major and the regular curriculum, and, for the exceptional student, to design a personal course of study.

Davidson encourages *community involvement*. Many students pursue projects in the town of Davidson, in the nearby city of Charlotte, or other area communities. Programs vary, and some students have studied and worked in prison reform, others with mentally retarded children. Programs of this kind enable students to see others as individual human beings with specific and unique needs, as well as helping them understand the processes of applying and acquiring knowledge.

A significant part of a liberal education is the *study of other cultures*, and Davidson encourages this both at the college and by study in France, Germany, England, the lands of the Classics, and Spain. These programs enable students to experience cultures which have values, attitudes, and mores different from their own and thus acquire a better understanding of and feeling for their own culture as well as others.

Davidson also affirms the value of *interdisciplinary study* undertaken in a responsible fashion. A highly respected program at the college is the two-year interdisciplinary Humanities sequence, a six-term course in the development of Western civilization, taught by fourteen different faculty members in two teams. The Humanities course now enrolls 126 freshmen, who must complete both years of the program to receive credit for it. The special value of the Humanities course is that it permits students to learn early in their college careers ways in which the integration of several disciplines can afford insights not usually available in a purely departmental framework. The interdisciplinary method helps to remind the student of the interrelatedness of knowledge.

There are other cross-disciplinary courses, as well as a *Center for Special Studies*. Davidson, then, is a small, liberal arts college which utilizes the area distribution requirement, the major, and additional opportunities as the basis of its academic program. It is Davidson's hope that the academic program is both rigorous and humanizing, that a Davidson education is an experience which not only helps men and women develop as persons, but which supplies its graduates with the skills necessary to pursue advanced work at graduate institutions of the highest quality. Because Davidson has a faculty of men and women devoted to teaching, because its historic commitment to the Christian faith has produced graduates who believe in service to others, and because Davidson is concerned enough to insure that each person is treated as an individual, Davidson believes its hopes can be realized.

REQUIREMENTS FOR GRADUATION

A student may earn either a Bachelor of Arts or a Bachelor of Science degree, depending upon the department in which he chooses to do his major work. To receive a Bachelor's degree, a student (unless enrolled in "special programs" in the Center for Special Studies where students have individually defined requirements in lieu of any or all of those described below) must:

1. be of good character and conduct, and discharge all college financial obligations to the satisfaction of the Comptroller.
2. complete satisfactorily 36 courses.
3. achieve a minimum of 72 grade-points on the 36 courses used to satisfy graduation requirements.

For this computation, only the most recent grade will be used for repeated courses.

4. complete the foreign language requirements.

A student may satisfy the foreign language requirement for the bachelor's degree by successfully completing the third-term level of a regular (not self-instructional language program) Davidson foreign language course (or its equivalent by transfer) or by a proficiency examination grade determined by the chairman of the appropriate foreign language department as meeting Davidson's requirements.

5. complete the composition requirements established by the faculty.
Normally entering students may take either Humanities 111-112-113 or English 21 or 22 as part of their freshman load. Students earning the grade of D in English 32 must take English 22. However, for those students who have a combined score of 1300 or above on the CEEB verbal part of the Scholastic Aptitude Test and the CEEB English Achievement Test, the English composition requirements will be waived. The college requires competence in written composition of all students in all academic work.
6. complete all requirements for a major field of study, including an average of 2.00 on all the courses in the major and achieve a grade of "B" or better in two courses in the major: see each department heading in "Courses of Instruction" section of this catalog for specific requirements.
When a course is repeated, only the most recent grade counts in computing this average. The student may use the same course to meet an area requirement and a major requirement.
7. complete all Area Requirements as follows:
 - a. Area I — Language, Literature, Music and the Fine Arts.
 - (1) Language and Literature. (Departments of Classics, English, French, German, Greek, Latin, Spanish).
 - (2) Art, Music, Theatre and Speech (Departments of Art, Music, Theatre and Speech).*Requirement:* three courses, including at least one course in each sub-division.
 - b. Area II — Religion and Philosophy (Departments of Religion and Philosophy).
Requirement: three courses; at least two from Religion.
 - c. Area III — Natural Science and Mathematics. (Departments of Biology, Chemistry, Mathematics, Physics).
Requirement: three courses from at least two departments. (Philosophy 205 is accepted by the Mathematics Department towards the fulfillment of this area requirement).
 - d. Area IV — Social Science. (Departments of Economics, Education, History, Political Science, Psychology, Sociology and Anthropology, South Asian Studies).
Requirement: three courses from at least two departments.
8. remain in residence at the college for at least two academic years (18 courses), one of which must be the senior year (the last 9 courses).
This requirement is interpreted to mean: (1) that, in addition to the general residence requirement stated above, a student will normally be required to complete his or her final courses at Davidson College; (2) that a senior with the approval of the Registrar may obtain transfer credit toward graduation by attending another college or university during the summer preceding his or her senior year, even though such credit may reduce the number of courses to be completed successfully at Davidson in his or her senior year to less than nine; and (3) that a student participating in an off-campus program under Davidson auspices is considered to be in residence, provided the student has

at least two academic years of on-campus residence.

All students in the college will receive their degrees either at the end of the spring term or of the summer session. Normally the final courses may not be completed in the fall term.

9. satisfy the requirements in physical education, unless excused by the college physician. Each student is required to demonstrate or attain proficiency in three individual sports and to participate in two team-oriented sports. Further information about this requirement may be found on page 86.

DEPARTMENTAL HONORS

A program of departmental honors is available in most departments that offer a major. Students of exceptional ability may substitute special work on an individual basis for a portion of the normal course requirements during the junior and senior years. Successful completion of the program entitles students to be graduated with "Honors" or "High Honors" in the department of their major.

Students with an average of 3.0 for all work prior to their junior year may apply to the appropriate department chairman for permission to become candidates for honors, specifying in detail the work they wish to pursue. Applications should be made in the spring of the sophomore year when courses for the following year are selected. Approval of applications is contingent upon maintenance of a 3.0 average through the term.

Seniors applying for honors must be recommended by the professors in their major department. The senior applicant must have completed all work of the first three years with a 3.5 average and maintain an average of 3.0 in non-honors classes during the senior year.

THE CENTER FOR SPECIAL STUDIES

The Center for Special Studies provides an alternative academic framework for the self-motivated student and the student interested in interdisciplinary studies. Applicants may be admitted to the Center either as participants in Special Programs or as participants in Interdisciplinary Studies. Both groups of students pursue a combination of regular courses, independent study courses, and tutorials and seminars offered in the Center; and they share and participate in the lectures, symposia and other events in the Center.

EXTENDED STUDIES

Extended Studies 1 and 2 is a feature of the Davidson College curriculum which allows freshmen and sophomores to tailor an academic undertaking according to their own interests and needs when the project they propose falls outside normal departmental frameworks and would not qualify as a normal independent study project. The student initiates the project and must be qualified to undertake it. Extended Studies will be evaluated only on a pass-fail basis, and students may register for no more than one such course per year. Consent of the instructor is required and is contingent on the instructor's having sufficient time as well as the qualifications to supervise the project.

Extended Studies 1 and 2 are elective courses which freshmen and sophomores may choose instead of another course. They do not fulfill distribution requirements. After receiving the instructor's approval to register for Extended Studies, the student must submit a written proposal for the planned course of study to the instructor before the end of the first week of the term in which it is to be undertaken.

INTERDISCIPLINARY STUDY

Courses and seminars of interdisciplinary study for which no available departmental listing is appropriate may be proposed. The course or seminar proposed must be approved in advance of its offering by the faculty sponsor(s), the departments involved, and the faculty.

PRE-PROFESSIONAL PREPARATION

Approximately 70 percent of Davidson's graduates continue their education at graduate or professional schools. The sound liberal arts education which Davidson offers serves as excellent preparation for further study or for entering a career directly following graduation.

Students with definite plans for graduate or professional school are urged to familiarize themselves with graduate school admission requirements and to consult with their advisers early about the most advantageous program to pursue. In general, graduate school standards are high. Applicants are expected to have done undergraduate work of good quality, to have a reading knowledge of at least one foreign language, and to make acceptable scores on the Graduate Record Examination.

Pre-Medicine: Davidson offers a premedical major, but students planning to attend medical school may major in another discipline and also fulfill requirements for medical school admission. An active Premedical Committee works closely with premedical and pre-dental students to guide them in their work at Davidson and to help them attain admission to a medical school suitable to their interests and talents.

Pre-Law: Law schools require no specific courses as preparation, but the Pre-Law Committee works with interested students to guide them in the type of preparation deemed most helpful. The Law School Admission Test may be taken at Davidson during the senior year.

Pre-Ministerial: An active Pre-Ministerial Committee holds seminars on aspects of the contemporary ministry and brings to campus representatives of the various graduate schools for theological education. Among Davidson's living alumni, there are over 900 ministers, testifying to the college's continuing work in preparing students for advanced study in the theological seminaries or graduate schools of religion.

Teacher Education: The Davidson curriculum offers good preparation for professional work or graduate study in education. No work in elementary education is provided at Davidson, but the student wishing to obtain the A-certificate for secondary school teaching may do so in English, Mathematics, Foreign Language (French, German, Latin, Spanish), Natural Science, Biology, Chemistry, Physics,

Social Studies, Economics, History, Political Science, or Sociology. To obtain the A-certificate, students must complete eight courses in education and psychology in addition to subject matter requirements (Education 121, 142, 152, 212-214, 216; Psychology 101; either Education 141 or Psychology 102). The North Carolina A-certificate is currently accepted in 30 other states. More complete information is available from the Chairman of the Department of Education.

Business Management: Davidson is vitally interested in contributing to business leadership persons with a rich liberal arts background. Many Davidson graduates enter the business world directly, and many others go on to graduate school in business administration or management. A major in economics is especially appropriate for those planning to enter business.

Music: Through the many performing opportunities (see under Campus Life) and the extensive course offerings, the Department of Music prepares its majors for careers in the applied and academic musical disciplines. Private instruction in voice, piano, organ, and trumpet is available from the department faculty. Instruction in strings, woodwinds, and lower brass is available from performing professionals (normally members of the Charlotte Symphony). Practice rooms, all with pianos, are available to all students; in addition, the three college performance halls contain Steinway grand pianos. There are three organs for use by students, including the College Church recital organ, designed by the college organist in the style of Gottfried Silbermann of the late Baroque period, which has 3576 pipes in 67 ranks and is played from a three-manual and pedal console. The department maintains an excellent library of music and records and has modern recording and reproduction equipment.

Engineering: Believing that the liberal arts college has a contribution to make toward the education of engineers in a society faced with increasingly complex technological and humanistic problems, Davidson has entered into cooperative engineering programs with Columbia University in New York, Georgia Institute of Technology in Atlanta, North Carolina State University at Raleigh, and Washington University in St. Louis. They offer an opportunity for five years of study leading to bachelor's degrees from both Davidson and the engineering school. The student attends Davidson for three years and the engineering school for the last two years. (A very few programs at N. C. State require an extra summer at the engineering school.) To receive a Davidson degree under the cooperative 3-2 plan a student must:

1. Complete 27 courses that will satisfy the regular distribution requirements for graduation, with at least a C average
2. Demonstrate the regularly required proficiency in foreign language, composition, and physical education
3. Graduate from one of the cooperating schools in an approved engineering curriculum.

Since many of the required courses must be taken in proper sequence, it is wise, and for some schools and/or curricula essential, for a prospective 3-2 student to get started on the program during his first term at Davidson. For further information and assistance, contact the faculty engineering adviser.

Reserve Officers' Training Corps: The Reserve Officers' Training Corps at Davidson leads to a commission upon graduation as a Second Lieutenant, United

States Army Reserve. The program provides ROTC graduates with a choice of all Army Branches; however, the Medical and Judge Advocate General (Law) require completion of medical school or law school and the Chaplain Corps requires active duty service in addition to seminary.

Women are encouraged to enroll in ROTC and to participate in the Army ROTC Scholarship program (see details under Financial Aid).

The Military Science Program consists of a two-year Basic Course and a two-year Advanced Course. The Basic Course is taken during the freshman and sophomore years and covers management principles; military history; leadership development; and military courtesy, discipline and customs. The Basic Course imposes no obligation; students may withdraw without penalty during normal drop-add periods. The Basic Course may be waived for those who have had Junior ROTC or active duty experience. (More information can be found under course descriptions.)

The Advanced Course is limited to cadets who have demonstrated potential for becoming Army officers and meet Army physical standards. It provides instruction in advanced leadership development, organization and management, tactics and administration, and pays a cadet \$100 a month each month he or she is in school, for up to 20 months. Advanced course cadets must attend a six-week advanced camp between their junior and senior years of college. Cadets receive pay during camp, plus travel expenses, room and board, medical and dental care and other benefits.

THE LIBRARY

The E. H. Little Library opened in September, 1974. The well-appointed building, 100,000 square feet and completely air conditioned, took five years to plan and two years to build.

Research materials are housed on three floors, and all of the 270,000 volumes, 70,000 U.S. Government Documents, and 1,500 periodicals are on open stacks, available for students to select for themselves. About half the student body can be seated in the library at one time, and a 24-hour Study Room is provided for those wanting study space during times other than the 105 hours per week the library is open. A CRT terminal to the campus teaching computer is located there, also.

The microform collection has more than 12,000 reels of microfilm, including complete runs of *The Times* of London from 1785, *The New York Times* from 1851, *The New York Tribune* from 1841-1924, *The Atlanta Constitution* from 1868, *The Charlotte News* from 1888 and *The Charlotte Observer* from 1892. Its 35,000 microcards include all of Evans' *Bibliography of Books Printed in America from 1639-1800*.

The Davidsoniana Room contains works by and about alumni, faculty, and staff members of the college. Of particular interest are collections dealing with Woodrow Wilson and Peter Stuart Ney. The Rare Book Room houses a first edition of the world's first great encyclopedia, several incunabula, special and numbered editions, as well as many objets d'art.

Reference assistance is available during most hours when the library is open from any of the seven professional librarians. One librarian serves as Reference

Coordinator for Independent Study, giving particular attention to assisting students and faculty in their independent study and research projects.

COMPUTER SERVICES CENTER

The Computer Services Center seeks to provide all Davidson students with a fundamental appreciation of what computers can do and how they do it, a good understanding of real and potential uses for computer services in students' personal and professional lives, and an awareness of computer limitations. For those students who wish to achieve additional computer competency, it provides ample opportunities.

In expanding its computer services, the college will install a PRIME 750 computer in June, 1981, dedicated to the computing needs of students and faculty in courses and in research. This computer will operate interactively and provide FORTRAN, BASIC, PL/I, APL, COBOL, PASCAL, and assembly languages in a time-sharing mode. It will provide word processing, computer-aided instruction, and graphics display. In addition it will communicate with computers at Triangle Universities Computation Center to provide software and resources for specialized or extremely large computing tasks. Terminals will be readily accessible to students and faculty, and the college anticipates that students will use the computer extensively in classroom and laboratory work.

ACCELERATED PROGRAMS

By taking extra courses a student can graduate early, make up a deficiency or gain enrichment. Students with a grade point average of not less than 3.0 for each of the two preceding terms, or those without a two-term record upon the recommendation of the adviser, are eligible to apply. Those enrolled take four rather than three courses per term. This program is limited to five percent of the enrollment of each class.

SUMMER STUDY

Four opportunities for study programs are offered by the college during the normal summer vacation period. Detailed information about them becomes available each winter. In brief, they are:

1. *Contract Courses*. Students may arrange individual courses with specific professors on a contract basis. Contracts are available in the Registrar's Office. Registration (a completed and executed contract) should be completed usually before July 18.

2. *Abnormal Psychology*. Each summer since 1970, in cooperation with Broughton Hospital, Davidson has offered a two-course program which combines Psychology 131 and 231 (Abnormal Psychology and Advanced Abnormal Psychology). This program is open to a limited number of students.

3. *Davidson in England*. A select group of students studies for six weeks in the summer at Wolfson College in Cambridge, England. See details under "Study Abroad."

4. *Study as a transient or visiting student* at another accredited college while maintaining matriculation at Davidson. Advance consultation with the Registrar is advised.

SELF-INSTRUCTIONAL LANGUAGE PROGRAM

Dependent upon the availability of tutors, independent study courses in non-western languages are offered to students of high motivation and demonstrable language-learning aptitude. The program is not intended to help satisfy the language requirement; normally students will have had a previous foreign language.

Emphasis is placed on the spoken language, though reading skills are also developed. Each offering is an intensive audio-lingual course utilizing self-instructional texts and tapes combined with three one-hour tutorial sessions per week with a native speaker and a final examination by a specialist who will usually be invited from another institution. The outside examination is the basis for the term grade. Auditing is not permitted. Consult the director for application materials and a list of languages currently offered.

This program requires the payment of an additional fee.

WASHINGTON SEMESTER

A cooperative arrangement between The American University, Washington, D.C., and 118 accredited colleges, including Davidson, permits students to spend the spring semester at The American University to study the processes of government through practical analysis and observation. The Washington Semester program serves students in any discipline who desire to deepen their understanding of American government. Study is carried out through a seminar, an individual research project, and either one additional course or an internship.

The seminar is offered for two course credits. Meetings are held several times each week with public officials, political figures, lobbyists, and others active in government.

The individual research project is designed to provide a depth of understanding of a single political problem or activity. It carries one course credit.

A course, if elected, is chosen from the regular curriculum of The American University. The internship, which may be elected as an alternative to the course, is arranged with an appropriate legislative, administrative, or political office.

In addition to the regular Washington Semester program, there are three related programs available to Davidson students during the spring semester. The *Washington Urban Semester* is designed to provide a realistic picture of the urban political system. The *Foreign Policy Semester* is designed to give the student an opportunity to observe and study the foreign policy decision-making community in Washington. The *International Development Seminar* is designed to permit the student to gain insight into the breadth and complexity of the issues concerning international development through a first-hand view of the many governmental, international, and private organizations in Washington concerned with development.

The curriculum features of these related programs are similar to those of the regular Washington Semester program.

Tuition is paid through Davidson College by the student, while charges for room and board are paid at The American University. While especially designed for majors in the social sciences, the programs are open to students regardless of their major field, provided their academic work has been of sufficiently high quality.

Students interested in the program are invited to consult with the Department of Political Science.

CHARLOTTE AREA EDUCATIONAL CONSORTIUM

The CAEC is an organization of the eleven institutions of higher education within approximately twenty-five miles of Charlotte. Those colleges and universities work together to foster the highest possible level of college and university education in the Charlotte area, and to encourage the development of mutually beneficial relationships between the consortium institutions.

Students in the member institutions may cross-enroll to take advantage of courses not offered by home institutions; for inter-library use of books, journals, reference works, and related resources; and for planning inter-institutional student programs.

The consortium also offers assistance for arranging meetings of the faculties of the academic disciplines and of the administrative areas of the institutions. Limited funding and other assistance is given in the development of workshops and conferences for various interest groups in the member institutions. For example, the English departments of the CAEC schools have sponsored an annual Writers and Readers Conference.

Those wishing more information should contact one of the Davidson representatives of the CAEC.

STUDY ABROAD

Study abroad is an important element in a liberal education, and there are many opportunities for foreign study open to Davidson students. In the case of the junior year abroad, the cost, including tuition, room, board, and most travel expenses, is approximately the same as that of a similar period at Davidson. Students receiving financial aid may apply it to the cost of the year abroad.

Qualified students in all disciplines are encouraged to participate in foreign study programs. A resident adviser, usually a member of the Davidson faculty, serves as director of the program at its overseas location and, in most cases, teaches and supervises academic work. All programs allow time for program-related and independent travel.

Davidson-sponsored programs are:

1. An academic year abroad (usually the junior year) with full credit in either Marburg (Germany) or Montpellier (France).
2. One-term programs: Classics Seminar, Spain or Latin America, Art History in France, and a Semester in India.

3. A summer program at Wolfson College in Cambridge, England, sponsored by the Departments of English and History.

Students may also study at one of several British universities or join academic programs sponsored and administered by other accredited American colleges or universities. In individual cases, arrangements for independent study abroad may be made with the major department and the Office of International Education.

Davidson at the University of Montpellier (France): Davidson students may study as fully matriculated students at the University of Montpellier, one of the oldest and most eminent universities of Europe, dating from 1221. Some of its most distinguished alumni include Petrarch, Rabelais, Paul Valery and Auguste Comte. The university includes five faculties, eight institutes, and an internationally known botanical garden. Course work is available in all disciplines of the humanities and sciences, and, in fact, more than half the participants are other than language majors. Although Montpellier is a thriving commercial center, there is little heavy industry and the life of the university dominates the community. Of the city's 165,000 inhabitants over one-seventh are students and faculty. Ideally situated in the old province of Languedoc, of which it was the capital, Montpellier looks toward both the sea and the mountains, with a beautiful beach and resort just to the south, and the Cévennes Mountains a few miles to the north. Within an hour's drive are many monumental remains of the Roman epoch in cities such as Nîmes, Arles and Avignon. The Pyrenees Mountains and the Spanish border are only about two and one half hours away to the southwest.

Seminar in Art History in France. A three-course credit art history program held in alternate years. It is open to sophomores or juniors regardless of major, and in exceptional cases, to seniors. Non-art majors may apply one course credit toward their major providing they have received advanced approval from their advisers. The first two weeks are spent at Davidson researching topics which will be presented by the participating students to the other members of the seminar when on location in France. The remaining eight weeks will be spent in Paris, Chartres, and on study tours of important artistic centers. The seminar terminates in France, permitting further individual study and travel.

Davidson at the Philipps-University, Marburg (Germany): The Davidson College Junior Year in Germany is affiliated with the Philipps-Universität in Marburg an der Lahn. Founded in 1527 by Philipp the Magnanimous, it is the oldest Protestant university. Throughout its history — beginning with the famous disputation between Luther and Zwingli in 1527 — it has played an influential role in the intellectual life of the world's reformed churches. The internationally known twentieth century theologian, Rudolf Bultmann, was a professor on the university's faculty.

Great men of other disciplines associated with the university include the Grimm Brothers and Boris Pasternak in philology and letters; von Savigny in law; Christian Wolff, Herman Cohen, and Ortega y Gasset in philosophy; Emil von Behring in medicine; and Bunsen, Braun and Hahn in physics.

The city of Marburg, situated on the plain and hills in the Lahn River valley about 60 miles northeast of Frankfurt, is a charming mixture of the very old and the very new. Besides the university, which now has about 12,000 students in all disciplines, Marburg boasts a well-preserved castle and gothic cathedral along with countless smaller treasures.

Davidson in the Lands of Classical Antiquity: A traveling seminar devoted to the study of classical antiquity, developed by the Department of Classics, is generally conducted each year. The seminar lasts about ten weeks and terminates in Europe. Return travel arrangements are the responsibility of individual participants, who may return to the United States or continue to travel or study in Europe.

Sophomores and juniors, and in specially approved cases seniors, regardless of major, are eligible. Application should be made to the Chairman of the Classics Department.

The academic program includes student-directed instruction on location in Greece and in Italy. The professor conducting the seminar holds group sessions at selected archaeological locations and museums. The seminar carries three course credits.

The professor conducting the seminar makes living arrangements, usually involving inexpensive native accommodations and food. Group travel is the rule but brief periods are provided for approved independent travel in Greece and in Italy.

Davidson in England: A summer program at Wolfson College in Cambridge is sponsored by the Departments of English and History for thirty students. *The Age of Revolution and Romanticism in English History and Literature, 1760-1832* is the central theme of both lectures and tutorials for the six weeks session. Lecturers and tutors are British university dons, principally from the University of Cambridge. The program is under the general direction of Professor Malcolm Lester, and the resident director is appointed from either the English or History Department. Participants in the program may earn one course credit in history and English.

Davidson in Spain or Latin America: A one-term program began in 1975 for a minimum of ten qualified students who wish to study in a Spanish-speaking country for less than a full academic year. Freshmen and upperclassmen are eligible, regardless of major. A Davidson professor serves as resident director and is assisted by a professor from the host country in teaching, arranging for special projects, and planning activities. Each student takes the normal load of three courses, lives with a local family, and participates in a broad range of course-related activities. Program locations will alternate between Spain and Latin America.

Term in India: In cooperation with the University of North Carolina at Charlotte, Davidson offers an opportunity to study and travel in India for 14 weeks. Students can earn three course credits. Students will live in Madras, attend lectures at the University of Madras for eight weeks, take weekend trips in the vicinity of Madras, and study the politics, religion, and society of Madras. Students will spend four weeks on a traveling seminar under the direction of the Archaeological Survey of

India, visiting important historical, archaeological and religious sites. At the conclusion of the group study, participants will have two weeks for individual travel and study. Open to juniors and seniors.

EXPERIENTIAL PROGRAMS AND LIFE/WORK PLANNING

The Office for Experiential Programs and Life/Work Planning provides information seminars, workshops, counseling and other support for students who seek a clearer sense of direction for their life and options for satisfying work following graduation.

The programs are flexible and students may take advantage of them in many ways and in a variety of time frames beginning with the freshman year. A resource center provides information on hundreds of opportunities for off-campus participation in service projects, business, industry, pre-professional internships, summer jobs and travel. Special arrangements have been made with the Philadelphia Urban Semester Program, the National Institutes of Health and the Washington Center for Learning Alternatives which enable students to gain substantive experience in such fields as business, health, government, law, social service and communications. The staff assists students in developing the experiential program they need, keeps in touch with them during the experience, and helps them evaluate their learning afterwards.

Field experiences have varied widely, with some students working with African villagers and others serving internships in Charlotte business firms. Internships range from one afternoon weekly to a full year. Each term the office sponsors day-long career exploration seminars in Charlotte and weekend wilderness experiences in the Carolina mountains. The Extern Program during an academic break places students with selected professionals for a one-week career-testing experience.

Although academic credit is not given for the experience itself, students may make arrangements with a professor to earn credit upon successful completion of an independent study project connected with it. Students benefit from the personal growth gained through the experience and also from the preparation it gives them for future interviews with graduate school or employer representatives whose visits are arranged by this office during fall and winter terms each year.

Interested students are urged to contact the Office of Experiential Programs and Life/Work Planning early to allow time for necessary planning and preparation.

CAMPUS LIFE

CAMPUS LIFE

Davidson College as an educational institution is the sum of many aspects of learning. To complement the relatively structured learning in the library, classroom, and conferences with professors, the college offers students a broader environment in which to develop socially, athletically, intellectually, and spiritually.

THE HONOR CODE AND THE CODE OF RESPONSIBILITY

As students and alumni proudly attest, the honor system at Davidson is the touchstone of the college life, creating an atmosphere of trust in the college community. In addition to faculty and administration support, the students believe in this system, defend it, and shoulder the responsibility for its implementation. Evidences that the system actually works are the open stacks and unguarded doors of the library, the absence of proctors during tests, the self-scheduled final examinations, unlocked doors in the residence halls, and the sense that a person's word is his bond.

The Honor Code is very simply stated.

"Every student shall be honor bound to refrain from cheating (including plagiarism). Every student shall be honor bound to refrain from stealing. Every student shall be honor bound from lying under oath. Every student shall be honor bound to report immediately all violations of the Honor System which come under his observation; failure to do so shall be a violation of the Honor System. Every student found guilty of violation shall ordinarily be dismissed from the college."

Each entering student signs a pledge that he will live under the system, which includes the condition that he will report an observed violation; when a student does lie under oath, cheat, or steal, he is tried under the Code of Disciplinary Procedure. If he admits his guilt or is found guilty by the Honor Council, he is ordinarily suspended from the college.

The Code of Responsibility is the basis of daily life at Davidson and attempts to foster an atmosphere of good conduct by emphasizing "the responsible use of freedom, as opposed to license." If, however, the rights of others are violated by an individual student, he is subject to censure under the Code of Disciplinary Procedure.

The College Community believes that these two codes are an integral part of the educational experience helping students to develop an honorable, responsible lifestyle. The codes produce an atmosphere of trust and freedom rarely found among American colleges; they form the cornerstone of this community.

INVOLUNTARY WITHDRAWAL

The college reserves the right to suspend, enforce the withdrawal of, or expel a student whose academic standing is unsatisfactory or a student who violates the

Honor Code, the Code of Responsibility, or college regulations. For copies of the codes, write to the Office of the Dean of Students.

The college, upon the advice of its professional staff, may for medical or psychological reasons require a student to withdraw temporarily from the college (if his health may endanger himself or others) while encouraging the student to seek professional care.

STUDENT GOVERNMENT

The tradition of student self-government at Davidson is an old and still viable one; Davidson's was one of the earliest student government constitutions (1910). As stated in the SGA by-laws, the purpose of the student government is "to share with the Board of Trustees, the Faculty, and the Administration the responsibility for developing and maintaining Davidson as a superior academic community."

Through the Senate, headed by the president and vice-president of SGA, and the many committees of the SGA, Davidson students govern themselves. The student senate is made up of three representatives from each class and nine from the residence halls in proportion to population, and two representatives from the off-campus students. Officers and senators are elected by student vote.

Although activity is centered in the senate, active participation in student government is not restricted to elected officials. Students from all classes serve on numerous committees of the senate and fill student positions on faculty committees.

CAMPUS LIVING

Davidson College is a residential community in which approximately 87 percent of the students live in college housing. A great part of a Davidson student's growth and education is initiated in the shared experiences of campus living. The daily interaction of students within the dormitories and houses has helped to build campus traditions unique to Davidson.

Freshman roommates and rooms are assigned by the Director of Housing, who makes every effort to match compatible roommates. Each freshman hall is assigned two hall counselors who work closely in the integration of freshmen into the Davidson campus. This is an exciting period for students, highlighted by hall rivalries, social activities, intramural sports and community projects. During this period, many close friendships are established which carry through the individual's Davidson years.

Upperclass men and women participate in a yearly lottery to select rooms in any one of the ten campus dormitories or thirteen perimeter houses. All residence halls are equipped with lounges; a few have kitchen facilities, and four are air-conditioned.

Permission is given for a limited number of upperclassmen to live off campus. The Davidson community, however, is quite small with relatively few rooms available in private homes.

Each student is responsible for his or her room and its furnishings. Each room has beds, mattresses, desks, chairs, chests of drawers and reading lamps. Linen is provided by the college. Most rooms have lavatories. There is a limited number of

single rooms available to upperclassmen. All students also share with the college the responsibility to maintain a clean, safe and enjoyable living environment within the residence halls.

SOCIAL LIFE

Social life at Davidson takes its cue from the setting: activities are often the result of small group interests — asking a professor to lead a discussion of a contemporary novel, sailing at the lake campus, dancing in the 900 Room, going to Charlotte for dinner and a movie — but there are many campus-wide activities which involve large numbers of students as well as other members of the college community.

THURSDAY COFFEE AND COKES

Between 10:00 and 10:30 on most Thursday mornings, students, faculty, and staff gather in the Art Gallery of Chambers for coffee, cokes, doughnuts, and informal conversation. On most of these days, the President and other members of the administration are available for answering questions about college policy or practice.

MEALTIME

Freshmen and upperclassmen who do not join a Patterson Court eating club or fraternity usually eat in the College Commons or the Union Snack Bar, which are operated by the college Central Dining Service. A dining club plan offers a meal ticket which can be used at all college-operated facilities. These facilities are not open during vacation or holiday recesses.

The Patterson Court fraternities and eating houses operate their own dining services and collect fees directly from members.

PATTERSON COURT

A majority of upperclassmen elect to participate in the small-group social system provided by the ten houses on Patterson Court. Each house provides facilities for dining and social activities; none has living accommodations. Four are national fraternities: Kappa Alpha, Pi Kappa Alpha, Phi Delta Theta, and Sigma Alpha Epsilon. Six are local clubs: Et Cetera (ETC), ATO, Emanon, Fannie and Mable, PAX, and Rusk House. Two fraternities, Sigma Phi Epsilon and Phi Gamma Delta, conduct their social activities in houses off campus, but their members eat at one of the houses on the court.

Affiliation with the Patterson Court fraternities is based on individual self-selection. Freshmen are introduced to the court by open houses and invitation to meals, and they are invited to big dances and informal parties throughout the year. During the winter term, freshmen may select the house they wish to join, and every effort is made to place them in the houses of their first choice. Some fraternities

cannot induct women into national membership; Rusk House is an all-women's eating club.

RELIGIOUS ACTIVITIES

Davidson offers a variety of ways to affirm faith, ask searching questions, and be of service to others. Some students participate fully in the life and work of area churches, while others express their convictions apart from religious institutions.

The college chaplain coordinates a number of activities, including discussion sessions and individual counseling. Worship services may vary from a 16th Century choral evensong to a modern dance interpretation of a Bach chorale. At least monthly, a well-known religious leader conducts a Sunday evening service. Faculty and staff members, students and others in the community are invited to participate in both planning and leading occasions of worship. There are also small-group opportunities for exploring issues — e.g., ethics in professions or the relationship of religion to economic or political life. Frequent retreats offer fellowship, understanding, and growth.

The Davidson Y Service Corps provides active volunteer programs for students who wish to work with others. Approximately 85 students are participating in STEP — interacting with elementary school children on a one-to-one basis — while others are involved in the Community Center, Day Care Center, North Mecklenburg Y, Senior Citizens Center, prison visitation, low-income housing improvement, or CROP lunches.

The Davidson Christian Fellowship has a large student participation. This organization offers a Sunday evening program and, most popular, numerous small groups which meet throughout the year for Bible study, fellowship, and discussion.

DRAMA

The college drama program, open to all students, presents two major productions, usually three-act plays, in the fall and spring. In the winter, workshop productions of one-act plays are directed by students and emphasize experimentation. Many of these plays are also written by Davidson students. Tryouts for all productions are open to the entire student body. Courses in the Department of Theatre and Speech seek to develop appreciation of the theatre by expanding theatrical experience. The Seminar in Performing Arts class takes an annual theatre trip to New York.

ART

The Art Department encourages all students to explore this creative, non-verbal medium of expression. A seminar is held in France during the Spring Term, and the course in Twentieth Century Art includes a field trip to New York City. The Art Gallery in Chambers houses the permanent collection of prints and drawings and hosts exhibits which change monthly. Often the artist attends a showing to talk about his work. The annual student art show opens in the spring with a showing of experimental films.

MUSIC

The Department of Music offers many performing opportunities through the various ensembles, most of which participate in individual tours during the Spring Holidays. Vocal groups include the Male Chorus, Women's Chorus, Chamber Choir, and the choirs of local churches. Instrumentalists may join the Wind Ensemble, Jazz Ensemble, Brass and Percussion Ensemble, Woodwind Ensemble, and the Wildcat Pep Band. The chamber music program involves various student ensembles coached by the faculty.

Students who are proficient on wind and stringed instruments may apply for the Harper Music Scholarship (see details under Admission and Finance).

The department annually sponsors a Sacred Music Convocation with outstanding guest artists.

On-campus musical events include the Artists Series, the Chamber Music Series, and frequent faculty and student performances. In nearby Charlotte, concerts are given by the Charlotte Symphony, the Oratorio Singers of Charlotte, the Charlotte Opera Association, the Community Concerts Association, and various community organizations.

FORENSICS

Forensic activities at Davidson have been growing in popularity in recent years.

Today's forensic program includes participation in intercollegiate debate and individual-event tournaments throughout the country. Recent teams have placed in the top ten nationally for the schools with under 2500 students. Each year qualified students are admitted to the Davidson Chapter of Delta Sigma Rho-Tau Kappa Alpha, the national forensic honorary. In addition to traditional debate, students compete in impromptu, extemporaneous, persuasive, and after-dinner speaking, original oratory, oral interpretation, and radio-television announcing. The experience gives valuable training in how to gather and use evidence, organize material, present arguments, and offer rebuttal.

ATHLETICS

Davidson's physical education program emphasizes the carry-over value of sports plus the importance of physical attributes in a person's development.

An active and well-organized intramural program offers a wide choice of sports, including flickerball, golf, soccer, cycling, basketball, volleyball, softball, swimming, track, wrestling, tennis, handball, racquetball, marksmanship, squash, table tennis, orienteering, horseshoes, and three-on-three basketball. Teams represent fraternities, dormitories, faculty, staff, and other groups. About eight out of ten students are active in one or more intramural activities.

In eight club sports—ice hockey, water polo, lacrosse, football, soccer, volleyball, water-skiing, and rugby—students from Davidson meet clubs of other colleges. Students themselves organize, fund, regulate, and schedule these sports activities.

Davidson College competes in 12 intercollegiate sports and is a member of the National Collegiate Athletic Association and the Southern Conference. Keen competition, coupled with a realistic level for each sport, sets the goals. Even though Davidson is a small college, its basketball teams rank in the nation's top college and university teams, and many of the varsity games are played in the Charlotte Coliseum, which seats over 11,000. Tennis, golf, and soccer teams have also won conference championships in recent years. With the exception of basketball, all scholarships are granted only on the basis of need.

Women have intercollegiate teams in tennis, field hockey, basketball, track and cross country. The intercollegiate rifle and sailing teams are coeducational. Most physical education classes are coeducational, and there are women's, men's and coeducational teams in intramurals. As the number of women on campus grows and interests broaden, more teams will be organized for both intercollegiate and intramural competition.

COMMUNICATIONS

Students interested in writing, editing, photography, or broadcasting enjoy working with the following:

The Davidsonian: a weekly newspaper, edited, written, and managed by students. It has received an All-American rating by the Associated College Press twenty times since 1951. The Office of Communications publishes *Update*, a tabloid paper with news of the college, its students, faculty, and alumni.

Quips and Cranks: the college yearbook, a student project.

The Wildcat Handbook: a guide designed to acquaint freshmen with the traditions, policies, activities, and personnel of the college.

The Davidson Miscellany: a magazine managed and edited by students. Published since 1965, it features short stories, reviews, poems, essays, forums, and plays contributed by students, professors, outside writers, and alumni.

Hobart's Park: an experimental magazine begun by students in 1979 to encourage writing and graphics by students and faculty.

WDSR: a carrier-current station managed by students and broadcast into dormitories.

WDAV-FM: an 18,500 watt classical music/fine arts station for greater Charlotte and the Piedmont. Training is available for interested students; qualified students hold jobs on the staff.

SPECIAL INTEREST GROUPS

Academic Speciality Clubs: active groups of students and faculty members with special interests in physics, mathematics, philosophy, psychology, and other disciplines. Their activities vary from social occasions to bringing speakers to campus. See also the list of honorary societies in the official record.

Alpha Phi Omega: a national service fraternity composed of students who wish to carry through college days the ideal of service to college, community, and nation.

American Guild of Organists: seeks to stimulate interest in organ and church music through lectures, discussion, and recitals. Affiliated with the Charlotte chapter.

Archaeology Club: for all students interested in archaeology, especially American colonial and prehistorical archaeology (Indians). Regular programs include discussions on history as revealed by archaeological techniques, study of techniques, and location of sites.

Black Student Coalition: membership includes all Davidson Black students. It seeks to encourage camaraderies among its constituency and to provide ethnic identification for Black students on campus.

Club Sports: provide competitive athletic and recreational opportunities in seven club sports: football, ice hockey, lacrosse, rugby, soccer, water polo, and water-skiing. Recognized by the college and coordinated by the Sports Club Council, each club individually schedules its own games with other colleges, submits its own budget, and regulates its own membership. Sports clubs complement intramural and varsity sports.

Davidson Christian Fellowship: provides Christian worship and fellowship on Sunday nights; meets in small groups for mid-week fellowship, Bible study, service projects, religious and social activities.

Davidson College Women's Center: seeks to serve all women at Davidson by providing a meeting place, resources, programming and emotional support.

Fellowship of Christian Athletes: dedicated to making the challenge of following the teachings of Christ more real and vital within the life of the individual athlete.

Flying Club: students who already have or are interested in obtaining a private pilot's license.

NC PIRG: (North Carolina Public Interest Research Group) a consumer research and advocacy organization. There are five member schools in North Carolina (Duke, Elon, St. Andrews, and Wake Forest).

NOW: encourages women students to research and discuss and then to attempt to effect change in areas pertinent to women students on campus.

Outing Club: seeks to study, explore, and protect wild places in North Carolina. Films and seminars supplement outdoor activities such as backpacking, mountaineering, orienteering, and white-water canoeing. Open to all students.

Photographic Society: student photographers who are not on the staff of one of the college publications have available a well-equipped darkroom in the College Union.

ROCS: for highly motivated students interested in becoming more proficient in leadership and military skills through adventure training such as mountain climbing, rappelling, or survival techniques. Open to both ROTC and non-ROTC students.

Sailing Club: for experienced and novice sailors, including the members of the sailing team, which races intercollegiately.

Young Democrats and Young Republicans Clubs: designed to create an interest in politics and their respective parties, they sponsor political programs.

Young Libertarian Alliance: seeks to inform and educate students on political,

educational, and social issues. Philosophically committed to individual rights, the alliance supports on the national level the Libertarian Party, founded in 1971.

THE GREY COLLEGE UNION

The College Union plans and presents campus-wide cultural, social, and recreational events, as well as offering informal opportunities for pursuing personal interests.

As the "living room" of the college, the union is a gathering place for students, faculty, staff, and visitors. Lounge areas, game rooms, a snack bar, a student store, an art gallery, meeting rooms, and student offices are used for a wide range of activities. The 900 Room is a special area of the union that provides an informal gathering place for students to socialize as well as a place for student and professional entertainment.

A planned program of social and co-curricular presentations is run by the College Union Board, composed of students and assisted and encouraged by many members of the faculty and staff. Student committees are responsible for fine and popular films, speakers, dances, artists, poets, concerts, games, and Broadway plays, as well as informal fare that includes crafts, clogging, and other special interest classes, video tape and giant screen TV specials, outing trips, and camp-outs.

Social highlights come usually on the weekends, with three big weekends, one each term, open to all students, their dates, and the other members of the community. Some special big weekend attractions in the past included Chicago, Police, Dionne Warwick, Two Generations of Brubeck, The Nitty Gritty Dirt Band, Livingston Taylor, Count Basie and Doc Watson.

Students, assisted by faculty and staff, are responsible for the Artists Series, which has recently presented Marcel Marceau, the National Shakespeare Company, Windom as Thurber, Ailey II Dance Co., the St. Paul Chamber Orchestra, and the Moscow Chorale. The Public Lecture Series has recently included Charles Kuralt, Vernon Jordan, Ralph Nader, James J. Kilpatrick, Sidney Harris, and Senator Sam Ervin.

HISTORY AND STATEMENT OF PURPOSE

HISTORY

When Davidson College first opened its doors to students in 1837, its 65 young men were expected to do manual labor to help pay the cost of their education. The manual labor system did not last long, but student life at Davidson during the 19th century differed substantially from life today. There was little emphasis on sports for physical development; students got the exercise they needed by chopping wood for their fires and drawing their water from the well. The early students lived in the row houses, of which Oak and Elm still stand, studied by kerosene lamps, and took their meals at boarding houses in the village. Their campus was a meadow, from which hay was harvested, and before the Civil War its main buildings were the rows (dormitories), the chapel, and the Eumenean and Philanthropic literary halls. The first faculty consisted of President Robert Hall Morrison and two professors, who taught "everything and all day long," even before breakfast.

Davidson was founded by Concord Presbytery, which committed itself to an institution that would be "safe and sound as long as the Church is sound." The undergraduate education of ministers was one objective, but the college was Christian, not sectarian. The early curriculum consisted of studies in moral and natural philosophy, evidences of Christianity, logic, mathematics, and classical languages.

The land on which Davidson College is built was acquired from William Lee Davidson, and the college was named for his father, a brigadier general who died in battle against Cornwallis' troops at nearby Cowan's Ford in 1781.

For suggestions as to an appropriate motto and seal, the founders sought out Peter Stuart Ney, a mysterious Frenchman respected for his learning. The old schoolmaster, whom many still believe to have been Napoleon's famous Marshal Ney, suggested an inscription recalling the Mecklenburg Declaration of Independence: *Alenda Lux Ubi Orta Libertas* — "Let Learning Be Cherished Where Liberty Has Arisen." The seal he designed, representing the sword of truth slaying the serpent of ignorance, has remained the emblem of Davidson College from that time to the present.

The college's early growth was slow, but it received a tremendous boost in 1856 when Maxwell Chambers, a merchant from Salisbury, gave over \$200,000. The first Chambers Building was built, faculty was increased, and for a period before the Civil War Davidson was the most prosperous liberal arts college south of Princeton. But the Civil War wrecked the endowment, and in 1867 there were only 25 students enrolled.

Recovery was slow but steady, and by 1890 the college as it is today began to emerge. The first Ph.D.'s were secured for the faculty, and the curriculum was expanded to include chemistry, physics, English, and history.

The beginning of the twentieth century symbolized a fresh start. With the return of prosperity, an increased concern for education spread throughout the region. Davidson entered upon a period of great expansion. The enrollment, about 100 at the turn of the century, tripled within a decade. The faculty was enlarged. New dormitories and other buildings were constructed. The college was able to increase its endowment steadily until by 1920 it had passed the half-million mark.

Disaster struck in November, 1921, when "Old Chambers" burned. The morning after the fire only the four tall columns loomed against the sky as a reminder of the building which had been the heart of the college. But by this time Davidson was strong and well established. With the help of many loyal friends, the present Chambers Building, much finer than the old, was constructed at a cost of more than \$600,000.

In the 1920s the curriculum was divided into four degrees, two A.B. courses and two B.S. courses. One A.B. degree was the basic classical course, including two years each of Greek and Latin. The other A.B. permitted two years of a modern language in place of one of the classical languages. The B.S. degrees were for those who majored in science or the social sciences.

During these same years came another great encouragement to Davidson College in the form of an annual income from the Duke Endowment.

Gradually the curriculum expanded. As early as 1927 the exceptional student could work on a semi-independent basis in a departmental honors program. Accounting, business, and music became part of the offerings; seminar courses were begun. In 1957 the four degrees were changed to two, the A.B. and the B.S., and in 1968 the curriculum was again revised, to take the form it has today.

The physical growth of the college paralleled its intellectual growth. The Jefferson theme, evident in the original quadrangle, was retained. Through the generosity and support of Presbyteries, The Duke Endowment, alumni and other friends, all of whom made substantial contributions to the college, dormitories were built, plus science buildings and a gymnasium and a fine arts building. Old buildings were remodeled or razed and new ones took their place and were added as the needs of the college changed.

The first women students were admitted in 1972.

Today Davidson College has an excellent physical plant, a healthy endowment, a loyal and generous group of alumni and friends, a student body of over 1,400, an outstanding faculty of approximately 100, and a reputation for academic excellence in the liberal arts. Much has changed since 1837, but the purpose for which the college was founded has held firm: to promote "knowledge and virtue" and prepare youth for lives of service to humanity. Davidson's doors are open to all races and both sexes, and there is a democratic campus social system and a dynamic intramural athletic program. The current curriculum, with flexibility as its key, seeks to encourage maximum development and individual responsibility. It has been said that "Davidson takes a good mind and puts it through the rigors of the academy."

Davidson has believed, and still believes, that a liberal education is an adventure of both mind and spirit which can free men from the future as well as the past. The details of how that adventure is charted have changed since 1837, but the adventure itself is ongoing. Davidson's conception of its role in the broad adventure of education is expressed in the official Statement of Purpose.

STATEMENT OF PURPOSE

Davidson College is an institution of higher learning established by the Presbyterians of North Carolina in 1837. Since its founding the ties which bind the College to the Presbyterian Church have remained close and strong. It is the desire of all concerned that this vital relationship be continued in the future, to the mutual advantage of church and school. The primary loyalty of the College extends beyond the bounds of denomination to the Christian Community as a whole, through which medium it would seek to serve the world.

Davidson recognizes God as the source of all truth. As a college committed to the historic Christian faith, it sees Jesus Christ as the central fact of history, giving purpose, order, and value to the whole life. Davidson is dedicated to the quest for truth and would set no limits to the adventures of the mind. Hence, it encourages teachers and students to explore the facts of the universe through the full and dedicated use of their intellectual powers. Faith and reason must work together in mutual respect if Davidson is to realize and maintain her vision of excellence in the field of Christian higher education.

In implementing its purpose to promote higher learning, Davidson has chosen to be a college, to maintain itself as a small community of learners, to emphasize the teaching responsibility of all professors, and to ensure the opportunity for personal relationships between students and teachers. It is vital that all students, freshmen as well as upperclassmen, know and study under mature and scholarly teachers who are able and eager to provide for each of them stimulus, instruction and guidance.

In meeting its responsibilities, the College must constantly endeavor to provide adequate physical facilities, and to increase its financial resources; but more important, it must seek persons of the highest caliber for student body and faculty alike. Davidson must always seek students of character, of general as well as academic ability, of loyalty to the ideals of the College, and of promise for future usefulness. In the selection of teachers, it must seek individuals of genuine spirituality who are outstanding intellectually, who have the best training available in their fields of study, and whose interest in the students and in teaching is unfeigned and profound. It must also provide these teachers with the time and opportunity for creative scholarship which is fundamental to the best teaching.

Davidson is a college of liberal arts. As such it emphasizes those studies, disciplines and activities which liberate mankind physically, mentally and spiritually. Although its curriculum prepares students adequately for graduate study, Davidson's primary purpose is to develop persons of humane instincts, of disciplined and creative minds, and of Christian character for full lives of leadership, of service, and of self-fulfillment. The College requires physical education, provides for competitive athletics, and encourages varied social and cultural activities. It endeavors to teach students to think clearly and accurately, to make relevant and valid judgments, to discriminate among values, and to communicate freely with others in the

realm of ideas. Since this can be significantly realized only on the basis of an appreciative knowledge of the past and a working acquaintanceship with current theory, Davidson concentrates upon the study of history, literature, music and the arts, the physical, natural and social sciences, languages, mathematics, philosophy and religion.

As body and mind require exercise and nourishment for healthy growth, so does the spirit. Davidson maintains, therefore, that a college must be a worshipping as well as a studying community, if it is to nurture the whole person and is to be genuinely Christian. Hence, religious services and activities, as well as courses in religion, form an integral part of its program.

Davidson College possesses a priceless heritage bequeathed by those who have given their lives and their possessions for its welfare. To it much has been entrusted, and of it much is required. In gratitude for what has been accomplished, but in humble recognition that it has not fully measured up to its own ideals either in learning or in life, its trustees, its faculty, its students and its friends must constantly rededicate themselves to their task. Only with divine guidance and through ceaseless effort can Davidson attain its goals and be what it ought to be.

DAVIDSON'S PRESIDENTS

Robert Hall Morrison (1836-1840); Samuel Williamson (1841-1854); Drury Lacy (1855-1860); John Lycan Kirkpatrick (1860-1866); George Wilson McPhail (1866-1871); John Rennie Blake, chairman of the faculty (1871-1877); Andrew Dousa Hepburn (1877-1885); Luther McKinnon (1885-1888); William Joseph Martin, vice president and acting president (1887-1888); John Bunyan Shearer (1888-1901).

Henry Louis Smith (1901-1912); William Joseph Martin (1912-1929); Walter Lee Lingle (1929-1941); John Rood Cunningham (1941-1957); Clarence John Pietenpol, acting president (1957-1958); David Grier Martin (1958-1968); Frontis Withers Johnston, acting president (1968); Samuel Reid Spencer, Jr. (1968-).

ADMISSION AND FINANCE

Admission to Davidson is based on many factors, with evaluation in three general areas: (1) academic, including achievement as indicated by secondary school grades and ability as indicated by test scores; (2) personal characteristics as evidenced in a personal statement and letters of recommendation; and (3) outstanding interests, achievements and activities as evidenced by participation in and contribution to the school, community or church.

Davidson College is committed to its responsibility as a liberal arts college within the context of our religious heritage, and it seeks to enroll students from a variety of racial, economic, social, religious, and geographic backgrounds.

SECONDARY SCHOOL REQUIREMENTS

Applicants should be in the senior year of secondary school and ordinarily should complete graduation requirements before enrollment at Davidson. At least 16 high school units are required, which should include the following: English 4, intermediate mathematics 2, plane geometry 1, foreign language 2, and history 1. Electives should include such courses as two or three years of science and additional courses in history and mathematics. It is strongly recommended that high school students continue in the same foreign language for the third and fourth year.

Candidates considering Davidson should take at least four academic subjects each year in secondary school. It is important that a strong academic program be taken in the senior year.

All applicants are required to take the Scholastic Aptitude Test of the College Entrance Examination Board and have an official score report sent to Davidson. Registration for the test should be completed at least five weeks before the date on which the test is scheduled. Either SAT or Achievement tests may be taken on any of the following test dates:

November 7, 1981
 December 5, 1981
 January 23, 1982
 March 27, 1982 (SAT only)
 May 1, 1982
 June 5, 1982

It is recommended that juniors take the SAT not later than the end of the junior year. This *must* be done by those interested in the Early Decision Plan. Those interested in the Regular Plan must take the test not later than January of the senior year.

It is recommended, but not required, that applicants take any three achievement tests of the College Board not later than January of the senior year. Achievement tests in subjects which will not be continued in the senior year should be taken in the spring of the junior year. Tests should be taken in December or January in subjects which will be continued in the senior year.

HOW TO APPLY

Students should write to the Director of Admissions and Financial Aid as soon as they become interested in Davidson. A catalog and other material will be mailed. A sheet giving detailed information on procedures is attached to the application for admission. The application will be mailed in September of the senior year in high school.

The application should be completed and returned to the Admissions Office with a \$25 nonrefundable application fee. Applicants then will receive a transcript form, a personal statement form, and three recommendation forms. When these forms are completed and returned and the results of the Scholastic Aptitude and Achievement Tests are received, the application procedures are complete.

Application should be made as soon as possible in the fall of the senior year. The deadline for application under the Regular Plan is February 15. Letters informing applicants of the decision on their application will be mailed on April 1. Applicants who are accepted are required to make a \$200 nonrefundable deposit on tuition by May 1.

EARLY DECISION

The Early Decision plan is for applicants who are certain they want to attend Davidson. Those accepted under Early Decision have approximately the same average scores and class rank as those accepted under the Regular Plan.

To apply under Early Decision, the student should:

1. Take the Scholastic Aptitude Test in the junior year and have the results sent to Davidson by the College Board.
2. Send a letter with the application requesting Early Decision, stating that Davidson is definitely his or her first choice, that application has not been made to any other college or scholarship program, and that, if accepted at Davidson, the student will enroll.
3. Complete all the requirements for admission, and financial aid if appropriate, before November 1 of the senior year.

All students will be notified by December 1. Those not accepted will be given full consideration again under the Regular Plan. Having applied for Early Decision in no way jeopardizes chances for acceptance under the Regular Plan. Students who wish to do so may take the Scholastic Aptitude or Achievement tests again in January.

Accepted applicants must make a \$200 nonrefundable deposit on tuition by December 15. Those whose parents have submitted a Financial Aid Form of the College Scholarship Service will be awarded financial aid if, according to the college's evaluation, financial need has been established. All accepted applicants will be considered for Honor Scholarships, and all awards will be made by December 6.

INTERVIEWS AND VISITS

Unless a student lives a great distance from Davidson, it is very important for the student to visit the campus for two reasons: (1) to have an interview with an admissions counselor, and (2) to see and experience what life on the campus is like. Interviews should be scheduled between April of the junior year and January 1 of the senior year. We prefer that visitors plan to spend a number of hours on campus attending classes (Monday through Friday) and meeting students and faculty members.

Applicants can make arrangements to spend a night in one of the dormitories by writing to the Admissions Office.

The Admissions Office is open during the entire year and appointments may be made by writing or telephoning (704/892-2000) at least a week before the proposed visit. Appointments may be scheduled between 8:30 a.m. and noon, or between 1:30 p.m. and 4 p.m. Monday through Friday. Between September 1 and November 14, or between March 1 and May 15, appointments may be scheduled on Saturdays between 8:30 a.m. and noon.

ADVANCED PLACEMENT

Students who have completed college level work in secondary school and wish to apply for placement or credit at Davidson should take the appropriate examinations offered by the Advanced Placement Program of the College Entrance Examination Board. Interested students whose schools do not administer the examinations should arrange to take them at another school. For further information, write the College Entrance Examination Board, Suite 200, 17 Executive Park Road N.E., Atlanta, Ga. 30329.

Academic credit will be granted for a score of 4 or 5, and at the discretion of the department concerned, credit may be given for a score of 3. These policies apply to transfers also.

TRANSFER

Students wishing to transfer to Davidson should complete the requirements for admission listed above and submit a complete college transcript and a statement of honorable dismissal.

Davidson accepts transfer credit from other colleges and universities approved by a regional accrediting agency, provided each transferred course is consistent with the academic objectives of Davidson College and the grade earned in the transferred course is comparable to a Davidson grade of "C" or better. Credit for one full or normal academic year at another college or university is transferred to Davidson as nine courses; the Registrar determines the amount of credit for less than one year of satisfactory academic work at another institution. Credit earned in high school under a joint enrollment program is considered as regular college transfer credit.

Davidson will accept a maximum of 18 transfer courses toward graduation. The maximum number of transfer courses accepted for the major is determined by the major department.

FINANCIAL AID

Davidson College has a comprehensive financial aid program, and approximately 40 percent of Davidson students receive financial aid from Davidson or some other source. The majority of those receiving aid from Davidson receive amounts equal to Davidson's computed estimate of financial need based on the Financial Aid Forms, and no student should hesitate to apply to Davidson because of limited resources.

All applicants for admission whose admissions files are completed by February 15 are automatically considered for Honor Scholarships. In cases in which there is no financial need, the stipend will be \$100.

If an applicant wants to be considered for any form of financial aid, his parents must complete the Financial Aid Form. Forms are available in high school guidance offices and from CSS. The completed form must be sent to the College Scholarship Service, Box 176, Princeton, N. J. 08540, with a request that a copy be sent to Davidson.

Students indicating on the application for admission that they plan to apply for financial aid based on need will be mailed a Davidson College application for financial aid. It should be returned directly to Davidson.

FINANCIAL AID POLICY

Davidson College awards financial aid primarily on the basis of financial need. Many high school students want to attend Davidson but are not able to finance the entire cost of a Davidson education. Davidson starts with the assumption that the parents and the student have the primary responsibility to meet educational costs to the extent that they are able, and this often includes sacrifices. Our financial aid program is not intended to make it financially easy but to make it financially possible for the student to attend Davidson. Through the combination of the resources of the student, parents, federal and state programs, and Davidson's financial aid program, many fine students who could not finance Davidson entirely through their own efforts are able to enroll and benefit from a Davidson education.

The financial aid program is extensive. Davidson is able to meet over 95 percent of all established financial need. Many students from middle- and upper-middle-income families have established financial need and have been awarded substantial financial aid packages including scholarships, loans and jobs. Therefore, any student who wants to attend Davidson should apply and fully investigate all possible combinations of financial resources.

A financial aid profile is available upon request from the Admissions and Financial Aid Office.

SCHOLARSHIP PROGRAMS

Need-based

Honor Scholarships: Approximately 35 of the most outstanding applicants for admission are awarded Honor Scholarships each year. Since scholarship finalists are selected from all applicants for admission without regard to financial need, it is not necessary to apply for consideration. Selection is based on scholastic promise, leadership ability, character, and promise of contribution. The stipend for each Honor Scholar is based on financial need. In cases in which a student does not need financial aid, or has not completed a financial statement, he or she will receive an Honor Scholarship with stipend of \$100.

Students with financial need who are awarded an Honor Scholarship receive a scholarship stipend of at least 75 percent of their need, and, if need is low, all of their need. This reduces or eliminates the necessity for either a loan or a job. In addition, the recipient will have a guarantee, as long as his scholarship is renewed, of the resources necessary to pay his college expenses for four years. In past years, some scholars who have received scholarships without stipend for their freshman year have received stipends of \$1,000 to \$3,000 for a later year at Davidson because of a substantial change in the financial situation of their parents.

Scholarships are listed by name in the back of this catalog.

General Scholarships: In addition to the Honor Scholarships, Davidson awards a substantial number of additional scholarships. All students admitted are eligible for consideration. These scholarships are awarded on the basis of personal qualities, satisfactory academic record, contribution to college life, and financial need. These scholarships are combined with jobs and offers of loans.

The Scholarship Committee gives special consideration to the sons and daughters of ministers and missionaries and to candidates for the ministry.

Music Scholarships: A limited number of music scholarships are awarded to students who possess a marked degree of proficiency on an instrument or in voice and are in need of financial aid. Awards range from \$100 to \$600 per year, and application should be made directly to the Director of Music.

Merit Awards

Davidson College

Honor Scholarships: See above.

James C. Harper Instrumental Music Scholarship: A \$500 scholarship is available each year for an entering freshman who shows proficiency on an orchestral instrument (strings, woodwinds, brass or percussion). Applicants will be expected to audition for the music faculty. Further information is available by writing Professor William D. Lawing of the music department. Applications are due not later than February 1 each year.

NCNB Scholarship Awards: North Carolina National Bank will award scholarships each year to two Davidson students with a stated interest in a business-related career. Any freshman applicant may apply. Once granted, the award will be renewed annually as long as the recipient maintains a 2.5 grade point average and makes normal progress toward a degree. In addition to the \$500 annual award, NCNB will arrange a six-week summer internship in its offices following a student's junior year, for which the scholarship winner will earn \$1,500.

International Scholarships: About 10 International Scholarships are awarded each year to nationals of countries other than the United States. In most cases these awards are for one year only. They vary in amount but may provide tuition, fees, room, board, laundry, and books.

Recipients are selected on a competitive basis with the cooperation of selection committees in each of the foreign countries and the Institute of International Education. Applications should be submitted to the Office of International Education at Davidson.

Outside Resources

Edward Crosland Stuart Scholarship Program: In 1976 the Edward Crosland Stuart Scholarships for especially able young men and women were established by the Edward C. Stuart Foundation. For 1980-81, four scholarships were awarded to students enrolled as freshmen at Davidson. Financial need is not considered in selecting recipients. The scholarship stipend covers tuition, fees, room, board and laundry, or approximately \$6,200 for 1980-81. Ordinarily each scholarship is renewable for three additional years.

Nominations for consideration are made by secondary school principals. Stuart Scholarships are not awarded by Davidson College. The selection of winners is made by committees formed by the Directors of the Edward Crosland Stuart Scholarship Program, P. O. Box 220952, Charlotte, N.C. 28222.

National Achievement Scholarships: Each year one or more renewable National Achievement Scholarships are awarded to incoming freshmen. Selection is made from those finalists in the National Achievement Scholarship Program for outstanding black students who have indicated Davidson as their first choice, and who have not been selected as a winner of another National Achievement Scholarship. The National Achievement Scholarship Program is part of the overall program of the National Merit Scholarship Corporation.

Army ROTC Scholarships: For men and women, these scholarships pay tuition, fees, books and laboratory expenses plus a tax-free allowance of \$100 per month for up to 10 months per year. Applications for a four-year scholarship must be completed by December 15 of the senior year of high school. Interested students should contact the Professor of Military Science at Davidson.

Federal and State Aid Programs

Pell Grants (Basic Educational Opportunity Grants): Pell Grants provided by the federal government are a form of gift assistance based on a federal need-analysis formula. They range in value up to approximately \$1900 for 1981-82. Applications and information are available in high school guidance offices, college financial aid offices, and most municipal buildings.

National Direct Student Loan Program: Davidson makes loans of up to \$3,000 total for the first two years of college and a maximum of \$6,000 total for the four undergraduate years under the NDSL program. No interest is charged while the student is enrolled at Davidson. Repayment begins six months after graduation and may extend over a 10-year period. The minimum repayment is \$90 per quarter. During the repayment period, four percent interest is charged on the unpaid balance of the principal of the loan. Loans are made only to students who need assistance.

Federally Insured or Guaranteed Loans: Participating banks or commercial lending agencies make loans up to \$2,500 per year. The Federal Government will pay the nine percent interest while the student is in school and during authorized periods of deferment. Additional information is available from the Davidson Financial Aid Office.

North Carolina Grants: The State Legislature of North Carolina provides a tuition grant of \$400 per academic year to each full-time undergraduate student who is a legal resident of North Carolina and attending a private institution in North Carolina. In addition, each private college in the state receives funds equal to the number of full-time residents enrolled from North Carolina multiplied by \$200. From these funds Davidson College makes scholarship grants in varying amounts to North Carolina students with established financial need.

EMPLOYMENT

Approximately 300 Davidson students have on-campus jobs which enable them to finance part of their education. Jobs are awarded by the Financial Aid Office as part of the total package of financial aid. Assignment to a specific job is made by the Financial Aid Office. All students who receive General Scholarships are required to work on a part-time basis. Freshmen usually are able to work eight to ten hours a week without handicap to their academic work.

TUITION AND FEES

During the summer preceding the academic year, the college Comptroller sends each student a complete bill for tuition and fees. Scholarship awards made to Davidson College, Basic Education Opportunity Grants, and ROTC Scholarships are credited on college bills. Outside awards, campus jobs, and loans are not shown as credit.

Advanced payment by mail is requested, and it is easier for both the student and the college.

The comprehensive fee for 1981-82 is \$7,075 payable according to the following schedule:

By April 1 (upperclass students) or	
May 1 (first-year students)	\$ 200.00
By September 8	\$3,337.50
By January 8, 1982	\$3,537.50
TOTAL	\$7,075.00

A freshmen orientation fee of \$70, payable by all freshmen, will be included in the September bill.

One half of the tuition deposit of \$200 which is due by April 1 for upperclass students and May 1 for first-year students is not refundable. \$100 is refunded if the student notifies the Comptroller before June 30 that he does not intend to enroll in the fall term. Otherwise it also is forfeited.

There is a \$10 penalty charge for late payment. If payments are later than September and January, additional penalties are assessed. No transcripts will be released and no diploma will be granted before a student has met all financial obligations.

Students who enter at the beginning of the second or third term will be billed at the appropriate percentage of annual fees.

After the term begins, no refunds on tuition and room rent will be made. Fees paid in advance for subsequent terms for which a student does not register will be refunded in full. Board and laundry are refunded on a pro rata basis.

The Comprehensive Fee includes:

1. Double-occupancy room rent. Single rooms cost \$1,035. All students are required to live on campus unless officially excused by the Director of Housing. Those excused may deduct \$885.
2. A full board plan, based on 19 meals per week. The college reserves the right to adjust the amount as necessary. The plan does not include meals during term or holiday recess periods. Upperclass students may elect to eat elsewhere, in which case they may deduct \$545.00 from the September and January payments (a total of \$1,090.00). Upperclass students must notify the Comptroller by September if they want to participate in the college Dining Club Plan.

To accommodate those who eat less a reduced board plan is available. Full meal plan details accompany the college bill.

3. Accident expense insurance and routine medical care (not full health service) at the College Infirmary. A college physician and a registered nurse keep regular office hours; students are encouraged to consult them freely. Additional charges are made for consultation or treatment by a physician other than the

- college physician, extra nursing, meals while in the infirmary, medicines, bandages, or other supplies. These charges are billed directly to the student.
4. Laundry. The college laundry furnishes bed linens to all single students, plus shirt/blouse service and the washing, drying, and folding of other laundry. The fee for laundry service, included in the comprehensive fee, is required of all single students. Dry cleaning and pressing are on a cash basis.
 5. Activity fee. The fee is for student publications, student government, and some social and cultural activities.
 6. Applied music fee. The hour-per-week applied instruction required of majors by the Department of Music is covered in the comprehensive fee, but there are separate charges for additional instruction or for private lessons for those who are not music majors. Fees per term for individual instruction in voice, piano, organ or orchestral instruments: one hour or two half-hour lessons per week, \$110; and one half-hour lesson a week, \$55. Charges for use of practice facilities each term, one period daily: organ, \$15; piano, \$10. Use of orchestral instruments per term, \$10. Payable as billed.

GENERAL INFORMATION

Insurance: In addition to the accident expense insurance provided for all full-time students, the College makes available a broad sickness insurance policy on an optional basis. A brochure with application and full details will be sent to each student.

Books: Books and other supplies are available at the college bookstore, where all purchases are on a cash basis. The cost of books varies with the course of study, but averages approximately \$250 per year.

Miscellaneous fees: Fees for late registration, change of course, library fines, damaged property, etc., are payable when incurred.

Transcripts: Every student is entitled to one transcript of his record free of charge. There is a fee of \$1 for each additional transcript.

Fire or theft: The college assumes no responsibility for damages or loss of personal property due to fire, theft, or other casualties. The parents' insurance may cover such loss.

Deferred Payments: Davidson College must collect fees in two installments, but it recognizes the need, or preference, of many parents to pay on a monthly basis. The College does not endorse any particular plan. There are two possible plans which provide for regular payments. *The National College Payment Plan* provides the student with a direct source of Government-subsidized guaranteed student loans and the parents' monthly payments to the plan provide funds to meet charges in excess of those paid by student loans. Further information may be obtained from National College Payment Plan, 53 Beacon Street, Boston, Massachusetts 02108. *The Tuition Plan* provides the student with a loan to cover school expenses with repayment made over an extended period. Information concerning this plan may be obtained from The Tuition Plan, Concord, New Hampshire 03301.

Information is mailed to freshmen concerning both of the above plans. Different states and banks offer a variety of arrangements and students are advised to inquire at their local banks, or at our Financial Aid Office, for further details.

COURSES OF INSTRUCTION

ART

Associate Professor Jackson. Assistant Professors Leshar, Ligo, Warren.

Area Requirement: Any course under 200 will count toward the fulfillment of the area requirement in Language, Literature, and the Arts (Area I, 2).

Major Requirements: A Major is offered in Art with emphasis in studio or history. In either case the requirement is twelve courses, to be broken down as follows:

Emphasis in studio: Three courses in art history to include 121 and nine studio courses, including 302 and 402.

Emphasis in art history: Three courses in studio to include 125 and nine art history courses, including 301 and 401.

Art History**107 AESTHETICS**

Staff

Same as Philosophy 107. A study of the philosophy of art through a consideration of the conditions and nature of the creation, experience, and criticism of art.

121 INTRODUCTORY SURVEY

Staff

The history of art from prehistory to the present examined in relation to the cultural background in which it was shaped.

127, 128, 129 SEMINAR IN CLASSICS ABROAD

Mr. Labban

Same as Classical Civilization 220, 221, 222. See description under Classics. Art majors who participate in this seminar can apply two of the course credits toward their major, provided that one of these two courses is directed by a member of the Art Department staff.

130 CLASSICAL ART AND ARCHITECTURE

Mr. Davies

Same as Classical Civilization 154. See description under Classics.

131 ROMAN ART AND ARCHITECTURE

Mr. Davies

Same as Classical Civilization 155. See description under Classics.

132 MEDIEVAL ART

Mr. Ligo

The development of western painting, sculpture, and architecture; beginning with early Christian and Byzantine art through the Romanesque and Gothic phases.

140 NORTHERN RENAISSANCE ART

Staff

Painting and sculpture in Flanders, France, and Germany from 1400 to 1600, with emphasis on the works of Van Eyck, Van der Weyden, Bosch, Bruegel, and Dürer.

141 RENAISSANCE ART IN ITALY

Miss Leshar

A critical study of painting, sculpture, and architecture in Italy from 1200-1600.

142 BAROQUE ART

Miss Leshar

A study of the painting and sculpture of the seventeenth century with special emphasis upon the works of the Carracci, Caravaggio, Bernini, Rubens, and Rembrandt.

151 NINETEENTH-CENTURY PAINTING

Mr. Ligo

The development of painting from neo-classicism to post-impressionism, emphasizing primarily the artists of France, and secondarily certain of those in England, Germany and Spain.

152 TWENTIETH-CENTURY ART

Mr. Ligo

A study of major trends in twentieth-century painting and sculpture from post-impressionism to the present. The course will include an optional field trip to New York City which will focus on the city's important contemporary museums. A fee of \$250 will be assessed class members to cover costs of transportation, housing, theatre performances and some meals.

153 MODERN ARCHITECTURE

Mr. Ligo

A study of the technical and stylistic developments in architecture during the past two hundred years with special emphasis upon certain outstanding individual architects.

160 HISTORY OF INDIAN ART

Mr. Thomas

A survey of the art traditions of the Hindus, Buddhists, Jains and Muslims as seen in the architecture, sculpture and painting of the sub-continent.

225-226-227 SEMINAR IN ART HISTORY IN FRANCE

Mr. Ligo

A three-course art history program open to sophomores or juniors regardless of major and, in exceptional cases, to seniors in the Spring Term. The program will consist of 12 students and will be offered only every other academic year. Non-art majors participating in this seminar can apply one course credit toward their major, providing they have received advanced approval from their advisor. The first two weeks of the seminar will be spent at Davidson researching topics which will be presented by the participating students to the other members of the seminar when on location in France. The remaining eight weeks will be spent in the cities of Paris and Chartres or on study tours of important artistic centers in other parts of France. The seminar will terminate in France, permitting the student further individual study and travel. *Prerequisite, Art 121*. Applications must be submitted to Professor Ligo during the Fall Term.

301 ADVANCED STUDY

Staff

An investigation during the junior year of an area not ordinarily offered in the curriculum.

401 SENIOR THESIS

Staff

Studio

125 BASIC STUDIO

Staff

An introduction, through the studio, to the work of the artist — his tools, his way of seeing, methods and media. Basic principles of visual organization will be stressed. No experience necessary.

135 BASIC DRAWING

Mr. Warren

Introduction to the structure and articulation of natural and nonobjective forms through the use of line and tone; analysis of composition. Basic drawing media — pencil, pen and ink, wash, pastel, charcoal, and crayon. No experience necessary.

145 BASIC PAINTING

Mr. Jackson

An exploration of various painting media — oil, water color, and acrylic. Emphasis on obtaining a basic understanding of pictorial organization. No experience necessary.

146 ADVANCED PAINTING

Mr. Jackson

Attention to the individual's personal response to visual elements. Development of a particular medium chosen by the student; special problems. *Prerequisite, 145*.

155 PRINTMAKING — BASIC SILK SCREEN, WOODCUT

Mr. Warren

Introduction to printing with silk screen, woodcut, and experimental relief methods. No experience necessary.

156 PRINTMAKING — BASIC INTAGLIO

Mr. Jackson

Introduction to intaglio techniques: etching, dry point, soft ground, and aquatint. No experience necessary.

157 PRINTMAKING — BASIC LITHOGRAPHY

Mr. Warren

Introduction to the techniques of lithography. No experience necessary.

158 ADVANCED PRINTMAKING

Mr. Warren

An exploration of advanced printmaking problems, including multi-color prints and the combination of media. Development of a particular medium chosen by the student. *Prerequisite, Art 155, or 156, or 157*.

165 DESIGN

Mr. Warren

Communicative potential of visual material through problems in composition, color, and light. No experience necessary.

295, 296, 297 INDEPENDENT STUDY

Staff

For the student who wishes to pursue some special interest in studio or art history under the direction and supervision of a staff member. The project must be initiated by a qualified student and approved in advance to register for this course.

302 ADVANCED STUDY

Staff

An exploration of a specific medium during the junior year, determined upon consultation with the advisor, leading to the senior exhibition.

402 SENIOR EXHIBITIONS AND EXAMINATION

Staff

A comprehensive oral examination based on a list of 19th- and 20th-century artists, together with an exhibition of the student's work.

BIOLOGY

Professor Kimmel. Associate Professors C. Grant, D. Grant, Lammers,
Putnam. Assistant Professor Case.

Area Requirement: Any biology course numbered between 20 and 199 for which the student has the proper prerequisite may be counted toward the fulfillment of the area requirement in Natural Science and Mathematics. The department recommends Biology 31 and 32 for students who choose two courses in biology, and Biology 21 for those who choose one.

Major Requirements: Each prospective major should discuss his program with his major advisor before registration for the junior year. The major requires 12 courses: Biology 31, 32; ten biology courses numbered 100 or above including at least two from those numbered 200 or above and at least one from each of the following groups: (1) 133, 141, 165, 166, 176; (2) 131, 132, 161, 162; (3) 121, 122, 151, 152, 164, 181; (4) 168, 171, 172, 191. Chemistry 31, 41, 101 and 102, Mathematics 25 and either 26 or 23, and Physics 35 and 36 are strongly recommended. Majors are encouraged to plan toward group or independent study at an advanced level in their senior year. Comprehensive examinations may be given, at the discretion of the staff.

Honors Requirements: The departmental honors program is designed to promote individual excellence through directed independent study and research. Twelve lecture and research courses are required, including Biology 31 and 32. The student should plan his program with his faculty advisor such that the combination of regular and special courses and research meets, in general, the balance of courses specified for the major. The program should be submitted in advance for departmental action. Research results must be presented in writing and orally to the department or another appropriate forum. The recommendation of the department regarding awarding honors will be based upon the quality of the course work, the research and its presentation, and a comprehensive examination.

10 INDEPENDENT STUDY FOR NON-MAJORS

Mr. Lammers

Offered to provide non-majors the opportunity to work in biomedically related career situations. No biology major or area three credit given. Grading for this course will be pass-fail. Student initiation for pass-fail registration is not needed. *No prerequisite. Permission of instructor required.*

11 INDEPENDENT STUDY FOR NON—MAJORS

Staff

Offered to provide non-majors the opportunity of conducting guided independent study in library, laboratory or field research aspects of biology. *No prerequisite. Permission of instructor required.*

13 EDIBLE WILD PLANTS*

Staff

A non-technical study of the rudiments of identification and use of wild plants for human food. Some consideration given to other uses of wild plants, e.g., as medicine. Field trips, an overnight survival trip, and preparation of food are usually part of the course. *No prerequisites. No biology major or area 3 credit given. Offered in alternate years.*

21 SELECTED TOPICS IN BIOLOGY

Staff

Designed as a terminal course for the nonscience student. Students who wish to take courses numbered over 100 should take Biology 31, 32 first. Emphasis is on *Homo sapiens* and his interaction with the environment as examples of basic biological processes.

31, 32 GENERAL BIOLOGY

Staff

Basic principles of biology demonstrated in plant and animal systems. Emphasis is placed upon the cell and its functions, inheritance, development, ecology, evolution, and the life cycle of the chief groups of plants and animals. One laboratory per week. Biology 31 should be taken first.

110 THE HISTORY OF BIOLOGY

Mr. Putnam

Major historical figures in biology, from classical to modern times, are examined. The contribution of each is studied and related to the greater body of biological knowledge. Emphasis is given to the societal climate into which each contribution was propelled. *Prerequisite, Biology 31, 32 or 21 or permission of instructor. Offered in alternate years. Not offered in 1981-82.*

121 INVERTEBRATE BIOLOGY — LOWER GROUPS

Mr. Grant

Functional morphology, ecology, and evolution of the lower invertebrate phyla. *Prerequisite, Biology 31, 32. Offered in alternate years. Offered in 1981-82.*

122 INVERTEBRATE BIOLOGY — HIGHER GROUPS

Mr. Grant

Functional morphology, ecology and evolution of the higher invertebrate phyla. *Prerequisite, Biology 31, 32. Offered in alternate years. Not offered in 1981-82.*

131 COMPARATIVE ANATOMY OF VERTEBRATES

Mr. Putnam

Gross anatomy of selected vertebrates, with emphasis on the evolution of vertebrate organ systems. *Prerequisite, Biology 31, 32.*

132 DEVELOPMENTAL BIOLOGY

Mr. Kimmel

Analysis and description of the processes and stages of animal and plant ontogeny, with emphasis on experimental embryology. Laboratory stress on vertebrate developmental anatomy. *Prerequisites, Biology 31, 32.*

133 GENETICS

Mr. Kimmel

An introduction to the principles of heredity. Includes both classical Mendelian inheritance and recent developments in the field. *Prerequisites, Biology 31, 32.*

141 MICROANATOMY OF THE VERTEBRATES

Mr. Putnam

Lectures emphasize the microscopic anatomy of vertebrate cells and tissues, drawing heavily from fine structure to correlate structure and function. Laboratories emphasize study with the light microscope and histological technique. Microanatomy and macroanatomy are correlated to both lecture and laboratory. *Prerequisites, Biology 31, 32.*

151 BOTANY — WOODY PLANTS

Staff

A study of trees, shrubs, and woody vines. Includes an intensive study of the local flora and a survey of exotic woody plants. Local field trips and weekend trips to the mountains and coastal plain. *Prerequisite, Biology 31 is recommended. Offered in alternate years. Not offered in 1981-82.*

152 SYSTEMATIC BOTANY*

Staff

The general science of plant classification with intensive study of the local flora. Much of the time will be spent in field work, including weekend trips to the mountains and coastal areas. *Prerequisite, Biology 31.*

161 ANIMAL PHYSIOLOGY

Mr. Lammers

An introduction to the basic physical and chemical principles governing the activities of animals. Lecture and laboratory material are designed to demonstrate these principles. *Prerequisites, Biology 31, 32 and Chemistry 31, 41.*

162 PLANT PHYSIOLOGY

Mr. Lammers

An introduction to the physical and chemical principles governing the activities of higher plants. Photosynthesis, plant hormones, mineral nutrition, and translocation are emphasized. *Prerequisites, Biology 31, 32, and Chemistry 31, 41. Offered in alternate years. Not offered in 1981-82.*

164 MICROBIOLOGY

Mr. Lammers

The natural history of the viruses and bacteria. Laboratory work on both the classical and experimental aspects of microbiology. *Prerequisite, Biology 31, 32. Offered in alternate years. Offered in 1981-82.*

165 BIOCHEMISTRY

Mrs. Grant

Introduction to the intermediary metabolism of living organisms, the properties of carbohydrates, lipids, and proteins and their interactions at the cellular level and the organization of macromolecules. *Prerequisites, Biology 31, 32 and Chemistry 31, 41.*

166 MOLECULAR CYTOLOGY

Mrs. Grant

Study of the organization and dynamic interactions of macromolecules within cells that result in essential cell properties. Emphasis will be placed on integrating molecular structure with biological function in a variety of systems. *Prerequisite, Biology 31, 32. Offered in alternate years. Offered in 1981-82.*

168 ANIMAL BEHAVIOR

Mrs. Case

An introduction to the principles of behavior, developed using a diversity of types and levels of behavior and a variety of animal forms. *Prerequisite, Biology 31, 32.*

171 ECOLOGY

Mr. Grant

Primarily animal ecology at the population and community levels. Practical studies will be carried out in the field and laboratory. *Prerequisite, Biology 31, 32.*

172 VERTEBRATE FIELD ZOOLOGY

Mrs. Case

Identification, habits and environmental relationships of typical vertebrates of the Southeastern region. Emphasis on the various groups of mammals, birds, reptiles, and amphibians. Local field trips and occasional weekend trips. *Prerequisite, Biology 31, 32.*

176 IMMUNOLOGY

Mrs. Grant

Study of the homeostatic effect of the immune system in selected animals, at the organismal and cellular levels. *Prerequisite, Biology 31, 32. Offered in alternate years. Not offered in 1981-82.*

181 ENTOMOLOGY*

Staff

Lecture, laboratory and field courses designed to acquaint the student with insects and related arthropod groups. Includes life-cycles and ecology of insects, as well as the literature and techniques of entomology. *Prerequisite, Biology 31, 32.*

191 EVOLUTION

Mr. Grant

Discussion of major processes and mechanisms, as well as trends, in plant and animal evolution. *Prerequisite, Biology 31, 32. Offered in alternate years. Offered in 1981-82.*

Only one course from those numbered 201 through 204, one from 210 through 220, and one from 295 through 298 may be taken for major credit.

201 INDEPENDENT STUDY FOR MAJORS

Mr. Lammers

Offered to enable majors the opportunity to work in biomedically related career situations. Grading for this course will be pass-fail. The usual student initiative for pass-fail registration is not needed. *Prerequisites, Biology 31, 32. Permission of instructor required.*

202 INDEPENDENT STUDY FOR MAJORS

Staff

Library research culminating in a substantial paper. Details of the work to be negotiated between the student and the sponsoring instructor. *Prerequisites, Biology 31, 32. Permission of the instructor required.*

203 FIELD BIOLOGY

Staff

A summer course designed to broaden biological horizons by offering first-hand contacts with plant and animal life in physiographic provinces and biological life-regions remote from the student's ordinary educational experiences. Trips have been made to the Rocky Mountain area and to Mexico. *Prerequisites, Biology 31, 32. Offered by arrangement.*

204 GROUP INVESTIGATION IN BIOLOGY

Staff

Small-group study of special topics in biology. Given at the option of the department, open to students by departmental permission. *Prerequisites, Biology 31, 32; appropriate 100-level course when applicable; permission of department.*

210-220 SEMINAR

Staff

A group study of selected topics of biological interest. Open to juniors and seniors. *Prerequisite, permission of department.*

295, 296, 297, 298 INDEPENDENT INVESTIGATION IN BIOLOGY

Staff

Field and/or laboratory investigative work on a semi-independent level under staff guidance. Results of the work must be presented as a seminar and written report. *Open to juniors and seniors with permission of the department and the professor in charge. The student is expected to initiate a program well in advance.*

299 SENIOR HONORS THESIS

Staff

One-term preparation of the results of independent research conducted by candidates for departmental honors. The written thesis and its oral defense partially fulfill the requirements for honors. *Prerequisite, acceptance by the department into the Biology Honors Program.*

OFF-CAMPUS BIOLOGY TERM

Staff

A term at a research facility away from Davidson, under the supervision of a member of the Biology Department Faculty. Students register for the appropriate 100 and 200 level courses. *Permission of the department required. Offered by arrangement.*

**Due to uncertainties about staffing, courses marked with an asterisk may not be offered in 1981-82. Announcements about the availability of these courses will be made term by term as the staffing situation becomes clear.*

THE CENTER FOR SPECIAL STUDIES

Professors Bliss (English), Dean; Kimmel (Biology).

Associate Professors Epes (German); Manning (Physics).

Assistant Professors Brockway (Psychology); Myers (Anthropology); Ortmayer (Political Science); Stell (Philosophy); Yoder (French).

Stressing the value of self-directed study, the Center for Special Studies offers capable and highly motivated students opportunities to design their own programs and to study independently. The members of the Center faculty advise students, work with them individually on projects, and offer a number of interdisciplinary seminars and tutorials. In these ways the Center strives to serve students who desire alternatives to the traditional majors in the college.

During the course of the academic year, Center students take seminars, tutorials, independent studies, and regular college courses. Center seminars are open to all students.

For the academic year 1981-82, the Center will offer seminars in areas of mutual student and faculty interest, especially in the areas of language, ethics, and values. Some of the work will emphasize international perspectives. Students who are interested in entering the Center should get in touch with Dean Bliss or with any other member of the Center faculty.

CHEMISTRY

Professors Bryan, Burnett, DeSieno, Fredericksen. Associate Professors Carroll, Gable, Nutt, Schuh.

Area Requirements: Any course numbered 20 or above will count toward the fulfillment of the area requirement in Natural Science and Mathematics.

Placement Tests: The department will offer placement tests prior to the beginning of the Fall Term to advise students on the best approaches to their chemistry programs.

The department will offer a special non-credit tutorial program to those students with inadequate preparation for Chemistry 31. It is suggested that such students participate in the tutorial program in the Fall Term prior to enrolling in Chemistry 31 in a subsequent term.

Students with exceptional high school chemistry backgrounds are invited to take a special placement test. Students making a satisfactory score on this test may begin their study of chemistry with Chemistry 41. Interested students should consult with the Chairman.

Major Requirements: (1) Chemistry 101, 102, 131, 132, 133, 151, 152 and 153. (2) Supporting and prerequisite courses: Mathematics 25 and 26, Physics 35 and 36. (3) German is the recommended language but another language might be more suitable in some cases. Mathematics 23 or experience in programming computers is desirable.

Each prospective major should discuss his program with a department representative early in the freshman year. The prerequisites for advanced courses require careful planning to obtain a feasible program.

Special Attainments Program: The following program is certified by the American Chemical Society as an approved undergraduate major in chemistry. This program is strongly recommended to all majors who plan to study chemistry in graduate school or to seek employment as professional chemists.

(1) Chemistry 101, 102, 131, 132, 133, 151, 152, 153; two courses selected from Chemistry 210, 220, 230, 240 and 250; and one course selected from Chemistry 295, 298, and 299.

(2) Supporting and prerequisite courses: Mathematics 25 and 26, Physics 35 and 36.

(3) German 16 or 20 and Mathematics 27 are strongly recommended.

(4) Approved mathematics or physics courses may be substituted for one of the courses numbered above 200.

21 THE SCIENCE OF CHEMISTRY

Mr. Gable, Mr. Schuh

An introduction to the science of chemistry and its relation to modern society. The laboratory provides experience in the scientific approach to problems with an emphasis on the evaluation and interpretation of experimental data. This course is designed primarily for students who do not plan to take additional courses in chemistry. It cannot be taken for credit after Chemistry 31 has been taken for credit. *One laboratory meeting per week.*

31 PRINCIPLES OF CHEMISTRY

Mr. Bryan, Mr. Gable, Mr. Nutt, Mr. Schuh

A rigorous introduction to chemistry for students who plan to take additional courses in chemistry. Topics include chemical bonding and structure, elementary solution equilibria, and introductory chemical kinetics. The laboratory includes experience in gravimetric and optical methods of quantitative analysis. *Prerequisite:* high school chemistry, Chemistry 21 or permission of the Chemistry Department Chairman. *One laboratory meeting per week.*

41 INORGANIC CHEMICAL ANALYSIS

Mr. Bryan, Mr. Burnett

A study of ionic equilibria in aqueous solutions and of descriptive chemistry of the elements. The laboratory includes volumetric and potentiometric methods of quantitative analysis as well as qualitative analysis for inorganic substances. *Prerequisites:* Chemistry 31, Advanced Placement credit, or special examination; *prerequisite or corequisite:* Mathematics 25. *Two laboratory meetings per week.*

101 INTRODUCTORY ORGANIC CHEMISTRY

Mr. Carroll, Mr. Fredericksen

An introduction to organic chemistry including a study of the nomenclature, properties, structure, and synthesis of organic compounds. The laboratory introduces the students to the basic experimental techniques of organic chemistry. *Prerequisite:* Chemistry 41. *One laboratory meeting per week.*

102 INTRODUCTORY ORGANIC CHEMISTRY

Mr. Carroll, Mr. Fredericksen

A continuation of the study of organic compounds with emphasis on the theoretical treatment of structures and reactions. The laboratory includes an introduction to spectroscopic determinations of organic structures. *Prerequisite: Chemistry 101. One laboratory meeting per week.*

106 BIOPHYSICAL CHEMISTRY

Mr. Schuh

Physical chemistry and its application to biochemical systems. Topics include necessary mathematical backgrounds, thermodynamics applied to intermediary metabolism, enzyme kinetics, equilibria, antigen-antibody interactions, chemistry of respiration and physical properties of proteins. *Prerequisite: Chemistry 101.*

131 TECHNIQUES IN EXPERIMENTAL CHEMISTRY:

Staff

SYNTHESIS, PHYSICAL METHODS AND DYNAMICS

Studies of basic synthetic strategies and of methods to determine physical properties and reaction rates. This laboratory course requires about ten hours of experimental work and two hours of prelab lectures each week. It is designed to be taken concurrently with Chemistry 151 in the junior year. *Prerequisite: Chemistry 102.*

**132 TECHNIQUES IN EXPERIMENTAL CHEMISTRY:**

Staff

SPECTROSCOPY AND ELECTROCHEMISTRY

Applications of spectroscopic and electrochemical techniques to the determination of chemical structures and concentrations of inorganic and organic compounds. This laboratory course requires about ten hours of experimental work and two hours of prelab lectures each week. It is designed to be taken concurrently with Chemistry 152 in the junior year. *Prerequisite: Chemistry 131.*

133 TECHNIQUES IN EXPERIMENTAL CHEMISTRY: APPLICATIONS

Staff

Applications of classical and instrumental techniques to the determination of chemical structures of inorganic and organic substances. Each student will also conduct an open-ended project that requires the planning and execution of a series of experiments utilizing the techniques presented in Chemistry 131 and 132. These exercises require the use of library resources and emphasize scientific writing skills. This laboratory course requires about ten hours of experimental work and two hours of prelab lectures each week. It is designed to be taken concurrently with Chemistry 153 in the junior year.

Prerequisite: Chemistry 132.

151 CHEMICAL STRUCTURES

Staff

A theoretical study of chemical bonding in both inorganic and organic substances. Classical and quantum mechanics are discussed as the basis for atomic and molecular bonding theories and for the interpretation of spectroscopic results. This junior year course is designed to be taken concurrently with Chemistry 131. *Prerequisites: Chemistry 102, Math 26 and Physics 36. (No Laboratory.)*

152 CHEMICAL DYNAMICS

Staff

A theoretical study of the chemical reactivities and mechanisms of inorganic and organometallic substances including a discussion of advanced synthetic methods. *Prerequisite: Chemistry 151 or permission of the Chemistry Department Chairman. (No Laboratory.)*

153 CHEMICAL THERMODYNAMICS

Staff

A theoretical study of chemical thermodynamics with an introduction to statistical mechanics and applications to solution chemistry. *Prerequisite: Chemistry 152 or permission of the Chemistry Department Chairman. (No Laboratory.)*

Seminars, Tutorials

These courses are offered upon student request and with the consent of the Chemistry Department Chairman. During the Winter Term the department will announce suggested topics for the following academic year. Students will be invited to suggest topics. Normally two courses selected from the student-faculty suggestions will be offered each year.

201 SEMINAR

Staff

A study of selected topics in chemistry.

210 ADVANCED ORGANIC CHEMISTRY

Mr. Carroll, Mr. Fredericksen

Selected topics in organic chemistry. Admission by consent of the Chemistry Department Chairman.

220 ADVANCED PHYSICAL CHEMISTRY

Mr. Gable, Mr. Nutt, Mr. Schuh

Selected topics in physical chemistry. Admission by consent of the Chemistry Department Chairman.

230 ADVANCED ANALYTICAL CHEMISTRY

Mr. Bryan, Mr. Burnett

Selected topics in analytical chemistry. Admission by consent of the Chemistry Department Chairman.

240 ADVANCED INORGANIC CHEMISTRY

Mr. Bryan, Mr. Nutt

Selected topics in inorganic chemistry. Admission by consent of the Chemistry Department Chairman.

250 ADVANCED BIOCHEMISTRY

Mr. Schuh

Selected topics in biochemistry. Admission by consent of Chemistry Department Chairman.

Individual Research

295 INDIVIDUAL RESEARCH

Staff

Designed for *any* qualified student who desires to pursue some special interest in chemistry. Admission by consent of the Chemistry Department Chairman following acceptance of the student's written research proposal.

298 INDEPENDENT RESEARCH IN THE JUNIOR YEAR

Staff

Laboratory, literature or applied chemistry projects conducted with the guidance of a faculty sponsor. The proposed plan for the independent research project must be submitted to the Chemistry Department Chairman by the last week of the term preceding the term of enrollment. Consult the department's guidelines for the preparation of independent research proposals. Chemistry 132 should be completed before Chemistry 298. Open only to chemistry majors in the junior year.

299 INDEPENDENT RESEARCH IN THE SENIOR YEAR

Staff

Laboratory, literature or applied chemistry projects conducted with the guidance of a faculty sponsor. The proposed plan for the independent research project must be submitted to the Chemistry Department Chairman by the last week of the term preceding the term enrollment. Consult the department's guidelines for the preparation of independent research proposals. Chemistry 133 should be completed before Chemistry 299. Open only to chemistry majors in the senior year.

CLASSICS

Professor Labban. Associate Professor French. Assistant Professor Davies.

Area Requirements: Any course in the department numbered 121 or above will count toward the fulfillment of the area requirement in Language and Literature (Area I, 1). Any course in Classical Civilization which is cross-listed by the Department of Art will satisfy the requirements in Area I, 2, provided one registers for it as an Art course.

Language Requirement: Completion in course or by placement examination of Greek 121 or Greek 122 or Latin 131 or Latin 132 satisfies the foreign language proficiency required for the degree. The Department of Classics offers a major either in Greek or in Latin.

Major in Greek: Nine Greek courses above Greek 2, including Greek 300 and 400-401; Classical Civilization 154 or one course credit from Classical Civilization 220, 221, 222. A prospective major in Greek who has not begun the study of Greek at Davidson College will be required to pass a diagnostic test in basic Greek grammar.

Major in Latin: Nine Latin courses above Latin 2, including Latin 300 and 400-401; Classical Civilization 155 or one course credit from Classical Civilization 220, 221, 222. (An exemption from Latin 131 or Latin 132 reduces to eight the number of required Latin courses. See under "Placement Tests" below.) A prospective major in Latin who has not begun the study of Latin at Davidson College will be required to pass a diagnostic test in basic Latin grammar.

Placement Tests: Students who have had Latin in secondary school will take a placement test, the score of which will determine their initial placement at the college level. A student may be exempted by qualifying scores on placement test from Latin 1, Latin 2, Latin 131 or Latin 132.

Greek

1 BEGINNING GREEK

Staff

A course for beginners in classical Greek grammar, with emphasis on inflection and syntax. Practice in translation and composition. Study tapes available for use in the language laboratory.

2 INTERMEDIATE GREEK

Staff

Continuation of study of basic grammar. Reading of selected Greek excerpts relating to mythology, history, and fables. *Prerequisite, Greek I.*

121 READINGS ON THE LIFE AND TEACHINGS OF SOCRATES

Staff

A study of one or more works by Plato or Xenophon in the original Greek. *Prerequisite, Greek 2, or by placement test with consent of instructor.*

122 NEW TESTAMENT GREEK

Mr. Labban

A study of one of the Gospels and of selected letters of Paul in the original Greek. Exegetical interpretation of the texts. Whenever there is sufficient demand for Greek 122, it will be the course which normally will follow Greek 121. *Prerequisite, Greek 121 or consent of the instructor.*

123 to 129 ADVANCED READING IN CLASSICAL GREEK

Staff

Intensive study of the works of selected Greek authors. Literary and historical criticism; required work in bibliography. The content of courses in this series will be determined in consultation with the instructor. If arrangement is made with the department in advance, these courses may be taken any term for elective credit or to complete the major requirement. *The prerequisite for Greek 123 is Greek 121 or Greek 122; the prerequisite for each course higher than Greek 123 is the previous course in the numerical sequence.*

250 SEMINAR

Staff

Study of a selected topic of classical Greek antiquity, with original source materials as the bases for the study. *Prerequisite, consent of the department chairman.*

295, 296, 297 INDEPENDENT STUDY Staff
For students who desire guided readings and directed research in certain materials in ancient Greek.
Prerequisite, Greek 2 and consent of the department chairman.

300 JUNIOR COMPREHENSIVE Staff
Completion of prescribed reading list, with final oral examination. Grading for this course will be pass-fail. The usual student initiative for pass-fail registration is not needed.

400-401 SENIOR TUTORIAL AND THESIS Staff
A two-course sequence on a selected topic of classical Greek antiquity, with original course materials as bases for the research, resulting in a written thesis and a final oral defense.

Latin

1 BEGINNING LATIN Staff
An intensive course for beginners in basic Latin grammar and syntax. Elementary practice in translation of adapted passages from ancient authors.

2 INTERMEDIATE LATIN Staff
Work in translating. Reading in genuine Latin literature selections which utilize and enlarge the fundamentals already acquired. *Prerequisite, Latin 1 or qualifying score on placement test.*

131 LATIN PROSE AND POETRY Staff
In this course the skills acquired in Latin 1-2 are developed by reading longer passages of classical Latin prose and verse. Further training in Latin prose composition. *Prerequisite, Latin 2 or qualifying score on the placement test.*

132 READINGS IN LATIN LITERATURE Staff
Latin prose and poetry from various periods. The material read will be determined in consultation with the instructor, with reference to the interests and level of proficiency of the individual student. Though this course is equivalent in level to Latin 131, Latin 132 is designed primarily for students who have learned the rudiments of Latin before coming to Davidson. *Prerequisite, Latin 2 or qualifying score on placement test.*

133 to 139 ADVANCED READING IN CLASSICAL LATIN Staff
Intensive study of the work of selected Latin authors. Literary and historical criticism; required work in bibliography. The content of courses in this series will be determined in consultation with the instructor. If arrangement is made with the department in advance, these courses may be taken any term for elective credit or to complete the major requirement. *The prerequisite for Latin 133 is Latin 131 or Latin 132; the prerequisite for each course higher than Latin 133 is the previous course in the numerical sequence.*

250 SEMINAR Staff
Study of a selected topic of Roman antiquity, using Latin source materials as bases for the study.
Prerequisite, consent of the department chairman.

295, 296, 297 INDEPENDENT STUDY Staff
For students who desire guided readings and directed research in certain materials in Latin. *Prerequisite, Latin 2 and consent of the department chairman.*

300 JUNIOR COMPREHENSIVE Staff
Completion of prescribed reading list, with final oral examination. Grading for this course will be pass-fail. The usual student initiative for pass-fail registration is not needed.

400-401 SENIOR TUTORIAL AND THESIS Staff
A two-course sequence on a selected topic of classical Latin antiquity, with original source materials as bases for the research, resulting in a written thesis and a final oral defense.

Classical Civilization

The courses listed below do not require knowledge of Greek or Latin. Open to all students except where stated otherwise.

15 INTRODUCTION TO TERMINOLOGY BASED ON GREEK AND LATIN

Staff

Training in the linguistic and semantic analysis of specialized terminology (medical, scientific, etc.). Principles of generating new terms in accordance with classical models.

151 GREEK VIEWS OF MAN AND WOMAN

Mr. Davies or Staff

Portrayal of man and woman by Greek writers from the Ages of Homer through the Hellenistic period. Readings in epic poetry, and one or more of the following: lyric poetry, the historians, Plato's myths. An effort is made, through lecture and discussion, to determine some of the assumptions about human experience underlying the works. Among subjects considered are: the heroic ideal, its evolution and its relation to the non-heroic; the individual and the community; literary forms as reflections of human experience.

152 GREEK DRAMA IN TRANSLATION

Mr. Labban

A close study of selected plays of Aeschylus, Sophocles, Euripides, and Aristophanes, with an aim at understanding the theological, moral, ethical, political, and social implications of their drama. A treatment of Greek mythology is included.

153 GREEK MYTHOLOGY IN ART AND LITERATURE

Mr. Davies or Mr. French

A study of Greek Mythology, including its background in Near Eastern myths and legends, its treatment by Greek poets and artists and its legacy among the Romans. Selected readings in translation from the Near Eastern texts and from Greek and Latin authors and assignments in modern interpretation will be supplemented by lectures and discussions dealing with the religious and historical background of the individual myths and by illustrations of the material with slides.

154 CLASSICAL ART AND ARCHITECTURE

Mr. Davies

(Same as Art 130). A survey of the Minoan-Mycenaean civilizations of the Aegean Bronze Age, followed by a survey of later Greek art and architecture from the Geometric to the Hellenistic Period. Emphasis upon art and architecture as cultural expression, the influence of neighboring civilizations, and the development of different styles and techniques, as well as the relationship between art and literature. Slide lectures and discussions.

155 ROMAN ART AND ARCHITECTURE

Mr. Davies

(Same as Art 131) A survey of the art and architecture of the Roman Republic and Empire, including study of the influence of earlier Etruscan and Hellenistic Greek art upon the Romans. Emphasis upon art and architecture as cultural expression, the development of different styles and techniques, religious and political propaganda, and the relationship of art and literature. Slide lectures and discussions.

156 CULTS OF THE CLASSICAL WORLD

Mr. French or Staff

A comparative survey of the phenomenology of ancient religions in the Greco-Roman world, with emphasis on cult and ritual rather than on mythology. Because of the richness of the subject matter, content will vary from year to year, typically ranging from the "Tree and Pillar Cult" of Minoan Crete to Mithraism. Extensive use of audio-visual materials.

220, 221, 222 SEMINAR IN CLASSICS ABROAD

Mr. Labban

(Same as Art 127, 128, 129) A three-course credit seminar offered in the Spring Term normally limited to a maximum number of 14 students; eligibility for application to participate is open to all sophomores and juniors regardless of projected major areas of study. Seminar will be performed "on location" in Greece and in Italy and will involve sessions conducted by the faculty director and by the participating students. The group will travel together in rented automobiles consigned to the director, and the seminar will terminate in Europe, to allow participants to continue travels individually. *No prerequisites*. Applications must be submitted to Professor Labban during the Fall Term.

250 SEMINAR IN CLASSICAL STUDIES

Staff

Special study of topics not ordinarily covered by other courses. May include any area of classical civilization, or of classical influences on later civilization, the specific subject matter to be determined by interests of students and staff. Does not ordinarily require knowledge of Greek or Latin. Examples of possible topics: the Alexander romance, comparative mythology, classical influences on English literature. *Prerequisite: consent of the department chairman.*

295, 296, 297 INDEPENDENT STUDY PROJECT

Staff

For students who desire independent guided readings and directed research in some area or in a specific topic of classical antiquities which they are interested in pursuing. No knowledge of Greek or Latin is needed for this course. A term paper is required. *Prerequisite, consent of department chairman.*

ECONOMICS

Professors Nelson, Ratliff.

Associate Professors Kincaid (on leave 1981-82), Lindsey.

Assistant Professor Ross. Visiting Instructor Hess.

Area Requirements: Any course numbered in the 100s will count toward the fulfillment of the area requirement in social science; however, the department recommends Economics 101.

Major Requirements: Courses 101, 102, 103, 104 (or Mathematics 148), 395, and a minimum of five courses chosen from among the 110, 120, 130 and 200 series, with at least three of the four series being represented.

Honors Requirements: The major requirements stated above, course 495, completion of an honors thesis, and oral defense of the thesis.

95 INDEPENDENT STUDY

Staff

Designed for non-economics majors who desire to pursue some special interest in economics on an independent study basis. The proposal must be approved in advance.

101 INTRODUCTION TO POLITICAL ECONOMY

Staff

A study of the theories and institutions that organize and direct economic activities in contemporary society. The course is designed to prepare the students for intelligent understanding of domestic and international economic problems upon which every citizen must pass judgment, to serve as a foundation for further work in economics, and to complement study in other areas.

102 MONEY, INCOME AND EMPLOYMENT

Miss Nelson

Intermediate macroeconomics with special emphasis on the operation and control of monetary and banking systems and the role of money in economic activity; monetary theory; current monetary policy and problems. *Prerequisite, Economics 101 or consent of instructor.*

103 THE PRICE SYSTEM

Staff

Intermediate microeconomic theory: a more advanced treatment of the central core of economic theory — value theory. The production and consumption activities of individual economic units are analyzed. Areas of concentration include the theory of consumer behavior, cost analysis, production and distribution theory, general equilibrium, and welfare criteria. *Prerequisite, Economics 101 or consent of the instructor.*

104 STATISTICS

Mr. Lindsey

Theories and techniques of statistical analysis: probability, estimation and confidence intervals, tests of significance and hypotheses, regression and correlation, time series analysis and principles of index numbers.

111 INTRODUCTION TO ACCOUNTING

Mr. Lindsey

A comprehensive study of the theory and problems of valuation of assets, application of funds, corporation accounts and statements, and the interpretation of accounting statements.

112 INTERMEDIATE ACCOUNTING

Mr. Lindsey

A study of the more complex problems in various areas of accounting, with emphasis on theoretical background and presentation. Includes cost accounting concepts and utilization of accounting data in planning and control of operations. *Prerequisite, Economics 111.*

113 QUANTITATIVE ANALYSIS FOR MANAGERIAL DECISIONS

Mr. Hess

A study of models for analysis and decision-making in economics and business, such as linear programming, multiple regression analysis, and models employing elementary differential calculus. Some use of computers is made.

114 FINANCIAL MARKETS

A study of various elements in the demand for and supply of long-term and short-term funds. Emphasis is on the applicability to problems of individuals and firms.

115 MATHEMATICAL ECONOMICS

Mr. Hess

The application of mathematical analysis to economic theory. The calculus, differential and difference equations, and matrix algebra are applied to the theory of consumer behavior, the theory of the firm, and production and distribution theory. Other topics include input-output analysis and game theory.

121 ECONOMIC HISTORY OF THE UNITED STATES

Mr. Ross

A study of the principal events affecting economic policy and behavior in the United States since colonial times. Special emphasis will be placed on the historical origins of contemporary American problems. *Prerequisite, Economics 101 or consent of instructor.*

122 MACROECONOMIC ANALYSIS

Miss Nelson

Neoclassical and Keynesian theories of aggregate economic activity; national economic accounting systems; economic fluctuation; critical consideration of macroeconomic policy and problems. *Prerequisite, Economics 102 or consent of instructor.*

123 INDUSTRIAL ORGANIZATION

Emphasis upon the theory, measurement, and history of the firm-structure of American industry, actual production and pricing policies, and criteria for evaluating industry conduct and performance. Government policies toward American industry — antitrust; regulation of public utilities, transportation, and communications; and public ownership — are discussed and analyzed. *Prerequisite, Economics 101 or consent of instructor.*

124 LABOR ECONOMICS

Mr. Ross

A study of labor markets, unionization, and public policy primarily in the setting of the United States. *Prerequisite, Economics 101.*

125 PUBLIC FINANCE

Mr. Ratliff

The public sector and economic welfare; public sector expenditures, revenues and debt management; fiscal policy. *Prerequisite, Economics 101 or consent of instructor.*

131 HISTORY OF ECONOMIC THOUGHT

Mr. Ratliff

The development and nature of economic thought from the ancient Greeks to the present, with particular attention to the classical, Marxian, Austrian, neoclassical, institutional, and Keynesian schools.

132 ECONOMIC SYSTEMS

Mr. Ross

A study of the organization of economic systems, both in theory and in practice. Case studies are drawn from both Western and Eastern Europe; also the economies of USSR, China, and Cuba are considered. *Prerequisite, Economics 101.*

133 ECONOMIC DEVELOPMENT

Miss Nelson

Analysis of economic development and growth in underdeveloped economies; comparative studies of advanced and underdeveloped economies; policies to promote development and growth.

134 INTERNATIONAL ECONOMICS

Mr. Hess

Fundamental principles of international economic relations, including the economic basis for international specialization and trade, policies affecting trade, the balance of international payments, and international finance. *Prerequisite, Economics 101 or consent of instructor.*

135 ECONOMICS OF SOUTH ASIA

Mr. Ratliff

A study of the economic features, problems, and policies of the region.

201 to 210 SEMINARS

Staff

Reading, research, papers, and discussion on current problems in economics. Each staff member will announce in advance the particular topic or area of his/her seminar. *Permission of instructor required for enrollment.*

295, 296 INDIVIDUAL RESEARCH

Staff

Designed for the student who desires to pursue some special interest in economics. The research proposal must be approved in advance.

395 SENIOR SESSION

Mr. Ratliff

Required of all seniors majoring in economics. Students will participate in colloquia on dominant economic problems, theory, and policy, will submit a substantial research paper, and will take a comprehensive examination in economics that includes the GRE advanced test in economics and oral and written examinations.

495 PRELIMINARY THESIS RESEARCH

Staff

Reading and discussion of selected materials, introduction to research areas, formulation of thesis proposal, and commencement of research and writing on thesis topic. *Open to honors candidates only.*

EDUCATION

Professors Hight, Kelton.

Assistant Professor Ault.

Area Requirement: Any course for which the student has the proper prerequisite may be counted toward the fulfillment of the area requirement in Social Science.

Teacher Certification: Davidson College is approved by the North Carolina State Board of Education to grant North Carolina A-Certificates at the secondary school level in the fields of English, Mathematics, Foreign Language (French, German, Latin, Spanish), Natural Science, Biology, Chemistry, Physics, Social Studies, Economics, History, Political Science, or Sociology. Through reciprocity agreements, the North Carolina certificates are accepted in thirty additional states. *For more information, see the Chairman of the Department of Education.*

121 HISTORY OF EDUCATIONAL THEORY AND PRACTICE

Staff

Traces historical development and underlying philosophies of educational institutions and practices in the Western World from the Classical to the Modern Periods; considers the roles and functions of the school in relation to other social institutions such as the state and the church.

141 HUMAN DEVELOPMENT

Mrs. Ault

Same as Psychology 141. Individual development of normal children and adolescents, with emphasis on learning, social and emotional development, cognitive and language development. Special study of behavioral, social learning, cognitive, and information processing theories of development. Includes observations at local day care centers or schools. *Prerequisite, Psychology 101.*

142 EDUCATIONAL PSYCHOLOGY

Mrs. Ault

Psychology of learning and teaching. Includes study of major contemporary learning theories, retention, transfer, motivation, educational measurement, and guidance. Some attention will be given to selected aspects of educational technology, reading, and assessment of individual behavior. *Prerequisite, Psychology 101. It is strongly recommended that students who are earning a teaching certificate take this course in the Spring Term of their junior year.*

146 PSYCHOLOGICAL MEASUREMENT

Mr. Kelton

Same as Psychology 146. Elementary treatment of the history, theory, and techniques of psychological measurement. Attention is given to the measurement of intelligence, academic achievement, personality, interests, differential, and special aptitudes. Includes limited experience in test administration and interpretation. *Prerequisite, Psychology 101.*

152 METHODS OF TEACHING

Mr. Hight

Study of procedures for the effective organization and presentation of subject matter in particular academic disciplines at the high school level. The contract must include a project title, a summary statement of project objectives and proposed activities, a preliminary bibliography, specific evaluation criteria and techniques, and a schedule of conferences with the instructor. *Prerequisite, approval of the department chairman and acceptance of the contract by the faculty sponsor.*

ENGLISH

Professors Abbott, Bliss, Cole, Holland.

Assistant Professors Engell, Lewis, McMillan, Nelson. Lecturer S. Ross.

Area Requirement: Any English course numbered 21 or higher may be counted toward the fulfillment of the area requirement in Language, Literature, and the Arts (Area I, 1).

Major Requirements: Ten English courses numbered above 100, including English 101, 102, 104, 495, and a seminar. Only one independent study, one interdisciplinary course, and one advanced writing course may be counted toward the English major.

Honors Requirements: English Honors is a program for students who wish to design a major with a unique focus. During the spring term of the sophomore year the aspirant should present to the department a proposal that will explain the focus and outline a course of study for the junior and senior years. *Twelve English courses are required for each honors candidate.* The following guidelines will govern the design of the major:

1. No English course numbered below 101 may be counted as part of the major.
2. One or two courses from fields related to the candidate's special study may, with departmental approval, be substituted for English courses.
3. Ordinarily English 101, 102, and 104 are required. The department, however, may waive one or all of these should the candidate have sound reasons for not including them in the proposal.
4. English 298, 299, and 495 are required.

21 ENGLISH COMPOSITION I Staff

FRENCH

Professor Walker (on leave 1981-82). Associate Professors Dockery,

Jacobus (on leave 1981-82), Yoder.

Assistant Professor Sutton (in France 1981-83), Instructor Poe.

Area Requirements: Any course numbered 20 or above will count toward the fulfillment of the area requirement in Language, Literature and the Arts.

Language Requirement: Completion of French 20 or a higher numbered course meets the foreign language requirement for the degree.

Major Requirement: The major program offers emphasis upon Language and Civilization or Language and Literature. Normally, study in junior year will be in French-speaking country. If such study is not done, an intensive language study program must be completed prior to senior year. Comprehensive examination in spring of senior year.

A. *Language and Civilization Emphasis:* Ten courses in French numbered 130 or above, including 134 or 136, 137, 150, 250, and at least three literature courses. 150 and 250 will stress study and projects in language and civilization. Students participating in the Davidson program at Montpellier are urged to take courses in French phonetics and civilization which may be accepted for major credit. Related work is encouraged in History, Political Science, Economics, Sociology, and Art History.

B. *Language and Literature Emphasis.* Ten courses in French numbered 130 or above, including 134 or 136, 150, 250 and at least five literature courses. 150 and 250 will stress study and projects in literature and literary criticism. Courses at Montpellier may be accepted for major credit. Related work is encouraged in the arts, English, and other national literatures.

Honors Requirements: In addition to the courses and comprehensive examination required for the major, the candidate for honors will take the Honors Course, French 208-209, during his senior year, will present an Honors Thesis and take an oral honors examination in French.

Placement of Freshmen: High school preparation and achievement examination taken at Davidson College will be used for placement in French 1, 2, 11, 20 or a higher numbered course. Students who have achieved fluency in speaking and reading French and adequate knowledge of French civilization, including literature, will be excused from the language requirement after special examination. All students desiring placement will take the achievement examination at Davidson College.

Study Abroad: Courses at the University of Montpellier in the Davidson College foreign study plan may be submitted for courses beyond French 20 with the approval of the department and the Vice President for Academic Affairs. *Study in France is strongly recommended for all French majors.*

GERMAN

Associate Professors Epes, Winkler, Wruck.

Area Requirement: Any course numbered 20 or higher may be counted toward the fulfillment of the area requirement in Language, Literature, and the Arts.

Language Requirement: Completion of German 20 meets the foreign language proficiency required for the degree.

Major Requirements: Nine courses above German 20, which must include German 151, 152, 153 or their equivalents, and German 401. With the approval of the department chairman, one of the five remaining courses may be an appropriate course in another department dealing substantially with some aspect of German culture, history or politics.

Honors Requirements: In addition to the Major Requirements, submission of an acceptable Senior Thesis (German 291) to be reviewed by at least three department members.

Placement of Freshmen: Achievement examinations taken previously or at Davidson College will be used for placement or exemption. Students having studied German in high school will be placed in German 10, German 20, or at a higher level (which exempts the language requirement) depending upon the examination results. Students failing to place in German 20 or higher, but with two years of high school German, should normally take German 11 but may take German 10.

Study Abroad: Courses taken at the Philipps University, Marburg, under the Davidson College Foreign Study plan may be substituted for courses beyond German 20 with the approval of the department. With such approval in advance, credit will be granted for other courses (e.g., at a Goethe-Institut) upon satisfactory completion of an examination. *Study in Germany is strongly recommended for all German majors.*

1 ELEMENTARY GERMAN I

Staff

For beginners. Extensive oral drill, grammar, and reading of selected German texts. Simple conversation and composition. Credit will not be given without German 20 unless the foreign language proficiency requirement has already been satisfied. Work in the language laboratory is an integral part of the course.

10 ELEMENTARY GERMAN II

Staff

A continuation of Elementary German I.

11 INTENSIVE CONTINUING GERMAN

Staff

An intensive review of elementary German, designed specifically for those students who have previously studied some German, but who fail to place above German 10. The course substitutes for German 10 for such students, and prepares for admission to German 20.

16 READING GERMAN

Staff

An accelerated introductory course designed specifically for those students who need a reading knowledge of German. Open only to students who have passed the degree requirements for foreign language, who have no previous credit for German, and who have shown aptitude for the study of foreign language.

20 INTERMEDIATE GERMAN

Staff

Continued drill in grammar, conversational practice and extensive reading for selected texts, toward the end of developing the ability to cope with German of moderate difficulty. Work in the language laboratory is required in the interest of speaking and comprehension skills.

151 INTRODUCTION TO GERMAN LITERATURE — NINETEENTH CENTURY

152 INTRODUCTION TO GERMAN LITERATURE — TWENTIETH CENTURY

Close reading of selected masterpieces of the period. Intensive practice in composition and conversation about the works read. *Prerequisite for either course: German 20, or its equivalent, or by consent of staff.*

295 INDEPENDENT STUDY	Staff
Directed reading and research on special subject and the writing of a substantial paper. <i>Admission by consent of the professor.</i>	
298, 299 HONORS TUTORIAL AND THESIS	Staff
The writing of an honors thesis based on primary sources is begun in History 298 during the Fall Term, and is completed in History 299 during the Winter Term. The honors student does directed background reading and research in a tutorial and writes the thesis under the supervision of a member of the History Department in association with another member as a second reader. A departmental oral examination on the thesis and whatever background the supervisors may specify is also required in History 299. <i>Admission by consent of the History Department.</i>	

HUMANITIES

First Year:

Professors Cole (English), Kaylor (Religion), Labban (Classics), Morrison (Philosophy), Polley (Religion), Rhodes (Religion).
Associate Professor French (Classics).
Assistant Professors Barnes (History), Krentz (History), Mele (Philosophy).

Second Year:

Professors Abbott (English), Maloney (Religion), MacCormac (Philosophy).
Associate Professors Epes (German), C. E. Edmondson (History), McKelway (Religion), Manning (Physics). Assistant Professors Barnes (History), Leshner (Art), Lewis (English). Lecturer P. B. Edmondson (Humanities).

The Humanities Program is an interdisciplinary course which enables a student in two years to satisfy the following area requirements: two courses in Section 1 of Area I, Language and Literature; two courses in Religion or one course each in Religion and Philosophy; two courses in European History and Political Science. Advanced placement credit in all of the above courses must be forfeited by the student electing Humanities. *Enrollment is limited.*

To receive credit, the student must continue the course through six terms. Instruction is by general lectures and teaching aids to the entire group of students, frequent discussion sessions in small groups, and conferences of individual students with instructors. Effective communication in oral and written English is stressed.

111-112-113 DOMINANT CULTURES IN THE

WESTERN TRADITION TO THE RENAISSANCE

Staff

A study of the development of Western Culture in its historical, religious, literary, artistic, and philosophical aspects from its origins in the Ancient Near East to the Renaissance.

121-122-123 DOMINANT CULTURES IN THE WESTERN TRADITION

FROM THE RENAISSANCE TO THE PRESENT

Staff

A study of the development of Western Culture in the modern world with particular emphasis upon its historical, literary, religious, political, economic, artistic, and philosophical aspects. *Prerequisite, Humanities 111-112-113.*

200 INDEPENDENT STUDY

Staff

(Enrollment limited to seniors with specific permission of the Second Year Humanities Staff.) Individual work with a member of the Second Year Humanities Staff, independent study related to the material of the course, and participation in the conduct of discussions. *Prerequisite, Humanities 121-122-123.*

MATHEMATICS

Professors Bernard, Jackson, King, Stroud.

Associate Professors Klein, Roberts.

Area Requirements: All mathematics courses (except Math 295) and Philosophy 205 will count as mathematics courses towards the fulfillment of the area requirement in Natural Science and Mathematics. Credit for Mathematics 25 and 26 may be obtained by department approval of a student's performance on the Advanced Placement Examination in Mathematics of the College Examination Board.

Major Requirements: Ten mathematics courses numbered 26 or above, except 295, and including Mathematics 26, 27, 100, 148, 151, two from among 120, 125, 130, 143, 149. Philosophy 205 may be substituted for one unspecified mathematics course.

Honors Requirements: Candidates for honors in mathematics may concentrate in either pure or applied mathematics. In meeting the major requirements stated above, honors candidates with a concentration in pure mathematics will include Mathematics 130, 131, 141, 152 or 153, 163 and 165 in their programs. Those with a concentration in applied mathematics will include Mathematics 120 or 125, 130, 131, 143, 149 and 165 in their programs. All honors candidates will participate in at least one seminar or independent study and will write an honors thesis which will be defended orally before the mathematics faculty.

Application for honors in mathematics should be made in writing to the Chairman of the Department of Mathematics during the spring term of the sophomore year. The application will include a proposed program of study to be pursued during the junior and senior years. Tentative acceptance as an honors candidate will be based on this program and on the candidate's academic record during the freshman and sophomore years. Formal acceptance will be made during the spring term of the junior year, at which time the candidate must submit an outline of a proposed honors thesis. The final recommendation of the department for graduation with honors in mathematics will be determined by the quality of the honors thesis, the oral defense, and the complete academic record of the candidate.

Graduate School: Any student intending to go to graduate school in mathematics should take the course work portion of the honors requirement above. The Graduate Record Examination, including the Advanced Test in Mathematics, should be taken in the fall of the senior year, and a reading proficiency in French, German or Russian should be required.

Certificate for Secondary School Teaching: A student intending to receive state certification in teaching secondary school mathematics should include Mathematics 146 in his program.

20 MATHEMATICAL CONCEPTS (Winter)

Mr. Bernard

This course is designed to illustrate the conceptual aspect of mathematical thought rather than its techniques and manipulations. It is also designed to illustrate the significance of mathematics in human culture. Terminal in nature, this course is not intended to prepare students for either Mathematics 23 or Mathematics 25. *Not open to students with credit for Math 25.*

23 STATISTICS AND COMPUTERS

Staff

Primarily a course in probability and statistics, this course includes an introduction to computing, using the BASIC language, with examples drawn from various areas of probability and statistics. Topics covered include probability theory, common frequency distributions, confidence intervals, hypothesis testing, regression, correlation, and non-parametric statistics. This course is offered each term. *Not open to students with credit in either Economics 104 or Psychology 110.*

24 APPLICATIONS OF FINITE MATHEMATICS

A study of mathematical techniques which do not involve the use of calculus and which have been extensively and productively used in problem solving during the last thirty years. The following topics will be included: applications of linear programming methods to optimization problems; applications of graph theory and matrix theory to communication network problems; applications of probability, markov chains, and/or game theory to decision-making problems. *No mathematics prerequisite.*

25 CALCULUS I (Fall, Winter and Spring)

Staff

An introduction to the differential calculus of elementary functions with applications to curve sketching, optimization problems, and related rates. The indefinite and definite integrals are introduced and applied to simple area and volume problems.

26 CALCULUS II (Fall, Winter, and Spring)

Staff

A continuation of Mathematics 25 with a further development of the definite integral and techniques of integration. Other topics included are infinite series, power series, elementary differential equations and, when time permits, a brief introduction to functions of two variables. *Prerequisite, Mathematics 25.*

27 CALCULUS III AND LINEAR ALGEBRA (Fall, Spring)

Staff

The course serves two purposes — an introduction to linear algebra and an introduction to multivariable calculus. These topics will be treated essentially independently although some applications of linear algebra to multivariable calculus will be made. Topics from linear algebra will include matrix algebra, linear transformations, hyperplanes in n -space, rank and change of basis. Topics from multivariable calculus will include partial derivatives, differentials, Jacobians, implicit functions, extremum problems, multiple and iterated integrals and change of variable in multiple integrals. *Prerequisite, Mathematics 26.*

100 INTRODUCTION TO ABSTRACT MATHEMATICS (Spring)

Staff

The course is designed to bridge the gap between procedural or practically oriented mathematics and conceptual or theoretically oriented mathematics. Stress will be placed on developing the students' theorem-proving ability. Topics will include introduction to logic, set theory, and point set topology — the topology of the real line being used as an example. This course should be taken during the sophomore year by prospective mathematics majors. *Prerequisite, Mathematics 27.*

120 MATHEMATICAL MODELING

Staff

The study of mathematical models as found in the natural and social sciences. The mathematical tools used will include matrices, systems of equations, elementary differential equations, curve fitting, and approximation methods. Emphasis will be upon development and validation of models and the role models play in scientific studies. A computer language will be introduced, and the computer will be used for some models. *Prerequisite, Mathematics 27.*

125 INTRODUCTORY COMPUTER SCIENCE

Mr. Roberts

Introductory topics of computer science chosen from concepts and properties of algorithms; languages and notations for algorithms; data structures, data manipulation, and machine representation of data; information retrieval; and simulation. This is not a programming course, but a computer language (BASIC) will be introduced and the computer will be used to illustrate concepts. *Prerequisite, Mathematics 27. Offered in alternate years.*

130 ADVANCED CALCULUS WITH DIFFERENTIAL EQUATIONS I (Winter)

Staff

This course is intended to expose students to techniques which are widely used in the physical sciences. Accordingly, emphasis will be placed on computation and application rather than on the underlying theory. The course includes vector integral calculus (line integrals, Green's Theorem, surface integrals, Stokes' Theorem, Gauss' Theorem), infinite series (convergence criteria, uniform convergence, Taylor series), ordinary differential equations (existence and uniqueness theorems, linear differential equations, power series solutions, Legendre and Bessel functions, numerical methods of solution, applications). *Prerequisite, Mathematics 27.*

131 ADVANCED CALCULUS WITH DIFFERENTIAL EQUATIONS II (Spring)

Staff

A continuation of Mathematics 130 including functions defined by improper integrals (the Gamma and Beta functions, asymptotic expansions), Laplace transforms (definition and properties, the inverse transform, applications to ordinary differential equations), Fourier series (convergence theorems, completeness), the partial differential equations of mathematical physics (the heat equation in one and two dimensions, the wave equation, Laplace's equation), and potential theory. *Prerequisite, Mathematics 130.*

141 INTRODUCTION TO TOPOLOGY

Mr. King

The major emphasis will be on an introduction to general metric and topological spaces. Included will be the concepts of completeness, compactness, connectedness, and fixed point theorems. *Prerequisite, Mathematics 100 or consent of instructor. Offered in alternate years. Not offered in 1981-82.*

143 NUMERICAL ANALYSIS I

Mr. Roberts

Introductory topics in numerical analysis including finite difference calculus, solution of equations by iteration, and error analysis. The college computer facilities are used as a computing laboratory. *Prerequisite, Mathematics 27 and a working knowledge of FORTRAN or BASIC or consent of the instructor.*

144 NUMERICAL ANALYSIS II

Mr. Roberts

A continuation of Mathematics 143 including additional topics on approximation of functions, numerical integration, and solution of differential equations. *Prerequisite, Mathematics 143. Offered in alternate years. Not offered in 1981-82.*

146 GEOMETRY

Mr. Stroud

A rigorous treatment of Euclidean geometry and an introduction to hyperbolic geometry. Neutral geometry is developed synthetically via a modified version of Hilbert's axioms. The Poincare and Beltrami-Klein models are used to establish the relative consistency of hyperbolic geometry. *Prerequisite, Mathematics 100.*

148 PROBABILITY

Mr. Jackson

A study of probability theory relative to both discrete and continuous probability laws. Topics include independence and dependence, mean, variance and expectation, random variables, jointly distributed probability laws, Chebyshev's Inequality, and a version of the Central Limit Theorem. Applications of probability theory are approached through a variety of idealized problems. *Prerequisite, Mathematics 27.*

149 MATHEMATICAL STATISTICS

Mr. Jackson

A mathematical approach to statistical theory. This course includes a study of the relevant distribution theory, a study of important properties of estimators, the problems of interval estimation and hypothesis testing, regression and correlation, and selected topics from non-parametric statistics. *Prerequisite, Mathematics 148. Offered in alternate years.*

151 ABSTRACT ALGEBRA I (Fall)

Staff

An introduction to the theory of groups, rings, and fields. Topics studied include normal subgroups, quotient groups, homomorphisms, Cayley's theorem, permutation groups, ideals, the field of quotients of an integral domain, Euclidean rings, and polynomial rings. *Prerequisite, Mathematics 100.*

152 ABSTRACT ALGEBRA II

Staff

A continuation of Mathematics 151 including additional topics in group theory and ring theory together with a study of extension fields, straight-edge and compass constructions, Galois Theory, and solvability by radicals. *Prerequisite, Mathematics 151. Offered in alternate years.*

153 LINEAR ALGEBRA

Staff

A further study of such topics as vector spaces, dual spaces, inner product spaces, modules, linear transformations, characteristic roots, matrices, canonical forms, trace, transpose, determinants, normal transformations, and quadratic forms. *Prerequisite, Mathematics 151 or consent of instructor. Offered in alternate years. Not offered in 1981-82.*

163 REAL ANALYSIS I (Fall)

Staff

A rigorous treatment of one-variable calculus including: metric spaces, sequences and series, continuity, differentiation, the Riemann-Stieltjes integral, sequences and series of functions. *Prerequisite, Mathematics 100. Offered in alternate years. Not offered in 1981-82.*

165 COMPLEX ANALYSIS

Mr. Klein

The algebra and geometry of complex numbers, sequences and series of complex numbers, derivatives and integrals of functions of a complex variable. The Cauchy-Goursat Theorem, the Cauchy Integral Formula and its consequences, Taylor series. Classification of singularities, the Residue Theorem, Laurent series. Harmonic functions, conformal mapping and if time permits miscellaneous applications. *Prerequisite, Mathematics 100 and 130. Offered in alternate years.*

Seminars

At least one of the following seminars is offered each academic year, ordinarily in the spring term. *Prerequisite, consent of the instructor.*

200 SEMINAR IN PROBLEM SOLVING AND HISTORY OF MATHEMATICS

Staff

201 ALGEBRA SEMINAR

Staff

202 ANALYSIS SEMINAR

203 TOPOLOGY SEMINAR

Staff

204 SPECIAL TOPICS SEMINAR

295, 296, 297 INDEPENDENT STUDY

Staff

Independent study is open to qualified students under appropriate circumstances by consent of the departmental chairman. Major credit is awarded for 296 and 297, but not for 295.

MILITARY SCIENCE

Professor of Military Science Colonel Roger E. Powell.
Assistant Professors Major Pittman, Captain Touchet, Captain Brauer, Captain Branch.

Basic course students (freshmen and sophomores) must complete 111, 112, 121, 122 or 125. Advanced course students (juniors and seniors) must complete the requirements for the Basic Course, 230, 231, 240, 241 and meet additional Army requirements for commissioning. Freshman, sophomore, junior and senior students will select one elective each year from the following areas: effective communications; science comprehension; psychology; sociology or political development and political institutions. The completion of these requirements will prepare the student for active and reserve duty as a commissioned officer. Military Science 111, 112, 121, 122, 125, 230 and 240 are non-credit courses.

111 MILITARY SCIENCE (BASIC - FRESHMAN)

Touchet

Mission and organization of the Army, including the evolution of the Army ROTC Program; introduction to military customs and courtesies. Leadership Laboratory emphasizes practical application of leadership principles and development of teamwork. Students have the option of taking 111, which includes one class hour each week, during either Fall or Spring Term. A three-hour leadership laboratory period per week is required during either the Fall or Spring Term. Instruction for this course may be obtained through the Modular Program as approved by the PMS.

112 MILITARY SCIENCE I (BASIC - FRESHMAN)

Touchet

Introduction to basic tactics; leadership and management; professional development and career opportunities. One class hour each week during the Winter Term.

121 MILITARY SCIENCE II (BASIC - SOPHOMORE)

Brauer

Instruction in map and aerial photography reading; introduction to theory of small unit basic tactics. Leadership laboratory emphasizes characteristics of leadership, development of teamwork and acceptance of responsibility. Students have the option of taking 121, which includes two class hours each week, during either Fall or Spring Term. A three-hour leadership laboratory period per week is required during either the Fall or Spring Term. Instruction for this course may be obtained through the Modular Program as approved by the PMS. *Prerequisite: MS 111-112 or equivalent credits.*

122 MILITARY SCIENCE II (BASIC - SOPHOMORE)

Pittman

A survey of American military history from colonial days to present. Emphasis on Army development and function in times of war and peace. MS 122 meets two hours each week during the Winter Term. *Prerequisite: MS 111-112 or equivalent credits.*

125 MILITARY SCIENCE I AND II (BASIC)

Pittman

A concentrated study of MS I and MS II subjects designed to meet entry requirements for the Advanced ROTC Program. Course is offered to selected students who cannot otherwise qualify for entry through the regular course of instruction. *Prerequisite: Approval of the PMS.*

230 MILITARY SCIENCE III (ADVANCED - JUNIOR)

Branch

Army techniques of leadership and management; military sociology, and military administration; branches of the Army; and leadership laboratory. Two class hours and one two-hour laboratory period each week for one term. Course is offered during both Fall and Winter Terms, however, laboratory is offered only during Fall Term. *Prerequisite: Basic Course or equivalent credits.*

231 MILITARY SCIENCE III (ADVANCED - JUNIOR)

Branch

Army techniques of leadership and management; small unit tactics and weaponry; land navigation and communications; and leadership laboratory. Three class hours and one two-hour laboratory period each week for one term. Course and leadership laboratory are offered only in the Spring Term. *Prerequisite: MS 230, or its equivalent.*

240 MILITARY SCIENCE IV (ADVANCED - SENIOR)

Powell/Pittman

Defense management and organization; obligations and responsibilities of an officer; professional ethics; leadership problem solving; and leadership laboratory. Two class hours and one two-hour laboratory period each week for one term. Course is offered only during Winter Term and leadership laboratory only during Fall Term. *Prerequisite: MS 231.*

241 MILITARY SCIENCE IV (ADVANCED - SENIOR)

Powell/Pittman

Military law; organizational concepts of management; advanced tactics and weaponry; and a research project. Three class hours and one two-hour laboratory period each week for one term. Course offered during Fall and Spring terms, however, leadership laboratory is offered only during Spring Term. *Prerequisite: MS 240.*

MUSIC

Professor Welsh. Assistant Professors Lawing, Swisher.

Area Requirement: Any course, except Music 25, may be counted toward the fulfillment of the area requirement in Language, Literature and the Arts. The department recommends 121 or 123.

Major Requirements: 101, 102, 103; two courses from 111, 112, 113; three courses from 201, 202, 203, 204; one course from 205, 206, 207; 301, 401; and applied music (see paragraph 1 under Applied Music below).

Honors Requirements: The Departmental honors program encourages the attainment of excellence in the major and in one of the following areas: 1) directed individual study and research; b) compositions; or c) performance. To qualify for honors in music a student must:

1. Complete all requirements for a major in music and two additional major courses;
2. Complete one of the following areas under the supervision of a member of the music staff through courses 295, 296, 297, or 301, 401:
 - a) a significant research project, designed and conducted by the student, and reported in writing to the music staff;
 - b) a group of original compositions, prepared for public performance, which demonstrates a high level of creativity and craftsmanship;
 - c) three memorized public recitals in an applied area which demonstrate high technical and interpretive proficiency;
3. Receive the recommendation of the music staff.

Completion of the above will not guarantee this recommendation. The music staff must be convinced of the superior quality of the student's work in all aspects of the program.

25 THE PHYSICS OF MUSIC

Mr. White

Same as Physics 25. A study of the relationships between well-known esthetic responses to music and the physics of the sound-generating instruments, of the sound waves themselves, and of the sound-detecting auditory mechanism. Some attention will be given to the unique characteristics of electronically generated music, as in the Moog synthesizer. The only mathematics involved is very elementary high-school algebra and trigonometry. Laboratory is not required, but laboratory facilities will be provided in which students can, on an optional noncredit basis, explore in greater depth some of the phenomena studied and demonstrated during the course. *Not offered in 1981-82.*

101 THEORY

Mr. Lawing

Basic vocabulary and techniques of music, and how they developed from prehistory to the present; ear training is stressed through sight-singing and rhythm and pitch dictations.

102 THEORY

Mr. Lawing

The study of eighteenth-century harmonic style from basic triadic structure through simple modulation; ear training continues. *Prerequisite, Music 101.*

103 THEORY

Mr. Lawing

The study of harmony from nineteenth-century chromaticism through the newer systems of the twentieth century; ear training continues. *Prerequisite, Music 102.*

111 FORM AND ANALYSIS

Mr. Welsh

The study of analytic techniques and their application to basic homophonic and polyphonic forms. *Prerequisite, Music 103.*

112 EIGHTEENTH-CENTURY COUNTERPOINT

Mr. Swisher

A study of the development and techniques of combining melodies within the harmonic framework of the eighteenth century. *Prerequisite, Music 103.*

113 ORCHESTRATION

Mr. Lawing

A study of the orchestra, its instruments and its literature, with emphasis on scoring and score-reading. *Prerequisite, Music 103 or permission of instructor.*

121 INTRODUCTION TO MUSIC IN WESTERN CIVILIZATION

Mr. Swisher

Designed for students who have had but slight contact with the art. Works of important masters from all periods will be studied with the aim of developing wider understanding of music through intelligent listening. *No prerequisite. No music training required.*

122 MUSIC IN THE UNITED STATES

Mr. Swisher

A non-technical survey of music and musicians in the United States from the colonial period to the present. *Prerequisite, Music 121 or permission of the instructor.*

123 WESTERN MUSIC IN THE LAST HUNDRED YEARS

Mr. Welsh

A non-technical study of western music composed during the last century, the musicians who wrote and performed it, and the historical events which affected it. *No prerequisite. No music training required.*

124 FOLK AND ART MUSIC OF THE WORLD

Mr. Lawing

An exploration of various musical systems of the world, approached through their basic musical elements. Discussion will center on the music indigenous to each system, and will trace its artistic expression through various stages of development. *No prerequisite. No music training required.*

201 SEMINAR: ANCIENT MUSIC

Mr. Welsh

Pre-Christian Greek, Hebrew, and Oriental music; the music of the early Church, especially plainsong and organum; the growth of modal polyphony to its climax in the Renaissance. To be offered in even-numbered years. *Prerequisite, Music 101 and permission of the instructor.*

202 SEMINAR: BAROQUE MUSIC

Mr. Welsh

The birth and development of opera, instrumental forms and styles, and a whole new musical vocabulary, culminating in the works of Bach and Handel. To be offered in even-numbered years. *Prerequisite, Music 101 and permission of the instructor.*

203 SEMINAR: CLASSICAL AND ROMANTIC MUSIC

Mr. Welsh

The formal perfection of Haydn and Mozart; the struggle between form and content from Beethoven to Wagner and Brahms; the rise of musical nationalism. To be offered in odd-numbered years. *Prerequisite, Music 101 and permission of the instructor.*

204 SEMINAR: MODERN MUSIC

Mr. Welsh

The search for new sounds and forms and perhaps for a new definition of music itself from Impressionism to electronics, with emphasis on the works of Stravinsky, Schoenberg, Hindemith, and Bartok. To be offered in odd-numbered years. *Prerequisite, Music 101 and permission of the instructor.*

205 CONDUCTING

Staff

Designed for students who plan to do both choral and instrumental conducting. Emphasis on techniques, rehearsal procedure, literature and stylistic practices. *Prerequisite, Music 103 or permission of instructor.*

206 TECHNIQUES OF MUSICOLOGY

Mr. Lawing

A study of the branches of musicology and the research techniques applicable to each; the application of some techniques to actual problem-solving. *Prerequisite, Music 103.*

207 SEMINAR: COMPOSITION

Mr. Welsh

The development and satisfactory completion of a creative project agreed upon by the student and the instructor; the project will last the three terms of any one academic year, but only one course credit will be given upon its completion. *Prerequisite, two courses from Music 111, 112, or 113.*

295 INDEPENDENT STUDIES IN MUSIC

Staff

Open to qualified students with the permission of the Chairman.

296, 297 INDEPENDENT STUDIES IN MUSIC

Staff

Open to music majors with permission of the chairman.

301 PROJECT FOR JUNIORS

Staff

A special project chosen from 1) recital; 2) arrangement or transcription of a work originally composed for another medium; 3) a composition over and above the course requirement; 4) research project in historical or current problems; 5) special projects in conducting.

401 PROJECT FOR SENIORS

Staff

Same as 301.

Applied Music

Applied Music: In addition to the above requirements all students majoring in music shall normally be required to take Applied Music. Each year one course credit will be given to a music major who takes Applied Music for the three terms of an academic year; during the year he may take one less regular course in one of the three terms. Progress in Applied Music shall be determined by performance examination at the end of each term with the third term grade being recorded as the final grade.

Individual instruction is offered in the following branches of Applied Music: Voice — staff; Organ — Wilmer Welsh; Piano — James Swisher; Trumpet — William Lawing. Instruction in other instruments is generally available by special arrangement with the Department of Music.

A student desiring to major in music must satisfy the department as to his ability to carry college-level work. He must also meet, at the beginning of his junior year, a minimum piano requirement.

Ensemble experience is provided for those who qualify for membership in Wind Ensemble, Male Chorus, Women's Chorus or Chamber Choir.

APPLIED MUSIC 11, 12, 13

Staff

Applied Music for music majors, freshman year, one hour per week. Individual instruction should be arranged through the department chairman. *Credit: One course for successful completion of one academic year of three terms.*

APPLIED MUSIC 21, 22, 23

Staff

Applied Music for music majors, sophomore year, one hour per week. Individual instruction should be arranged through the department chairman. *Credit: One course for successful completion of one academic year of three terms.*

APPLIED MUSIC 31, 32, 33

Staff

Applied Music for music majors, junior year, one hour per week. Individual instruction should be arranged through the department chairman. *Credit: One course for successful completion of one academic year of three terms.*

APPLIED MUSIC 41, 42, 43

Staff

Applied Music for music majors, senior year, one hour per week. Individual instruction should be arranged through the department chairman. *Credit: One course for successful completion of one academic year of three terms.*

APPLIED MUSIC 51, 52, 53 (non-credit)

Staff

Applied Music for non-music majors or for majors studying a second instrument, one hour per week without credit but for a grade each term of Pass or Fail. These course numbers designate terms rather than years and may be repeated as often as desired. *Prerequisite, permission of the instructor.* Non-majors may apply for one course credit for one academic year of study under Music 295. Such students should receive permission of the chairman prior to the fall term, and fill out the appropriate contract in the Music Department office.

APPLIED MUSIC 61A, 62A, 63A; 61B, 62B, 63B (non-credit)

Staff

Applied Music for non-music majors or for majors studying a second instrument, without grade or credit. Applied 61A, 62A, 63A indicates one-half hour of instruction per week; 61B, 62B, 63B indicates one hour of instruction per week. Either sequence may be repeated as often as desired. Neither sequence will appear on the student's permanent record. *Prerequisite, permission of the instructor.*

PHILOSOPHY

Professor MacCormac, Mellon Distinguished Visiting Professor Cohen.
Associate Professors Maydole, Stell. Visiting Assistant Professor Mele.

Area Requirements: Any course may be counted toward the fulfillment of the area requirement in Religion and Philosophy.

Major Requirements: Twelve courses in philosophy to include 100, 102, 105, 201, 202, 205, 285, and Seminars 250 and 251. Majors not intending to pursue graduate study in philosophy may substitute 101 for 205. All majors will take the Graduate Record Examination or a Comprehensive Examination in Philosophy 285.

The department will designate and offer introductory courses as independent study sections from time to time. The prerequisite for any course may be varied by permission of the department.

100 PROBLEMS OF PHILOSOPHY

Staff

An introduction to philosophy through investigation of several main philosophical problems approached by intensive analysis, interpretation and critical evaluation of selected classical and modern philosophical texts. Typical examples are: Free Will, the Mind-Body Problem, the Problem of Induction, the Existence of God, Perception, *A Priori* Knowledge, Moral Judgments, Verification and Metaphysics.

101 LOGIC AND LANGUAGE

Staff

An introduction to classical and contemporary logic with special emphasis upon reasoning and argumentation. Attention will also be given to the nature of language and its relation to philosophical problems.

102 ETHICS

Mr. Stell

An analytical and historical study of ethical systems, including some consideration of determinism and moral responsibility, theories of punishment, and contemporary metaethical theories.

103 PHILOSOPHY OF RELIGION

Mr. MacCormac

A philosophical examination of basic problems in classical and contemporary religious thought. Among topics investigated are the nature of religion, the validity of religious claims, the relation of faith to knowledge, arguments for existence of God, life after death, the problem of evil, the meaningfulness of religious language, the relation of religion to morality, and alternatives to theism. *Offered in 1981-82.*

105 HISTORY OF ANCIENT PHILOSOPHY IN THE WEST

Mr. Mele

An historical introduction to the origins and development of philosophy with special emphasis on the Pre-Socratics, Plato, Aristotle, Stoicism, Epicureanism, and Neo-Platonism.

106 AMERICAN PHILOSOPHY

Mr. MacCormac

A study of the main themes, movements and figures of American philosophy to include close study of major American philosophers such as Peirce, James, Royce, Dewey, Whitehead, Santayana, and Mead. *Offered in 1981-82.*

107 AESTHETICS

Mr. MacCormac

A study of the philosophy of art through a consideration of the condition and nature of the creation, experience, and criticism of art.

108 CHINESE PHILOSOPHY

Mr. Stell

An analysis of those philosophical traditions which shaped ancient Chinese society and which continue to influence contemporary social practice: Confucianism, Taoism, Mohism, Legalism and Buddhism. Contrasts will be made with Western philosophical traditions in order to gain perspective on the diverging conceptions of human nature, the state, and society.

109 SOCIAL AND POLITICAL PHILOSOPHY

Mr. Stell

The moral evaluation of the proper extent and limits of political power, and the social institutions through which such power is exercised. Analysis of such questions as: What justification is there for the government of some men by others? What is the proper extent of government control over the individual? What duties do citizens have? Analysis of such concepts as freedom, rights, justice and equality.

110 EXISTENTIALISM

Mr. Maydole

A study of the literary and philosophical works of Dostoevsky, Kierkegaard, Nietzsche, Sartre, Camus and other prominent existentialist writers.

111 PHILOSOPHY OF LAW

Mr. Stell

An analysis of the nature and function of law. An examination of various theories of the law and the relation of law to morality. An assessment of the principles of legal reasoning and jurisprudence with attention to decided cases.

112 PHILOSOPHICAL BASES OF COMMUNISM, FASCISM AND DEMOCRACY

Mr. Cohen

An analysis of basic social and political ideologies.

201 HISTORY OF MEDIEVAL PHILOSOPHY IN THE WEST

Mr. Mele

A study of the rise and development of Medieval philosophy with special emphasis on such major figures as Augustine, Aquinas, Duns Scotus and Ockham in primary and secondary texts. *Prerequisite: Philosophy 105 or permission of the instructor.*

202 HISTORY OF MODERN PHILOSOPHY IN THE WEST

Mr. MacCormac

A consideration of the emergence of modern philosophy from its classical background with special emphasis on epistemological and ontological issues in the thought of several major figures from the Rationalists, the Empiricists, Kant and their successors. *Prerequisite: any philosophy course or permission of the instructor.*

203 TWENTIETH-CENTURY ANALYTIC PHILOSOPHY

Staff

The main emphasis will be on Moore, Russell, Wittgenstein, and the Logical Positivists. An attempt will be made to evaluate the claim of many contemporary philosophers that a careful analysis of language will enable us either to solve or dissolve the traditional problems of philosophy. *Prerequisite: any philosophy course or permission of the instructor.*

205 SYMBOLIC LOGIC

Mr. Maydole

A study of the nature of formal systems including the development of a propositional calculus, first-order predicate calculus, recursive functions, the Godel theorems of 1931, as well as selected issues in the philosophy and foundations of mathematics and logics. *Prerequisite: previous work in philosophy or mathematics. Interested students must consult with the instructor.*

206 PHILOSOPHY OF SCIENCE

Mr. MacCormac

An investigation of: (1) the nature of scientific knowledge and how it is acquired, expressed and justified; (2) the philosophical presuppositions of the natural, social and life science; (3) the relationship between science, technology and human values. *Prerequisite: any philosophy course or permission of the instructor.*

250 SEMINAR FOR JUNIORS

Staff

Advanced analysis of topics in philosophy. Among seminar topics offered in recent years have been the philosophy of Whitehead, Aesthetics, Marxism, the philosophy of Cassirer, American Philosophy, Science and Religion, Order in Society, Phenomenology, and Causality. *Prerequisite: two courses in philosophy including at least one 200-level course.*

251 SEMINAR FOR SENIORS

Staff

See description for 250, above.

285 TUTORIAL IN PHILOSOPHY

Staff

Advanced study of a major philosophical figure or problem. Open only to philosophy majors, normally taken in the senior year. Approval of the Chairman required.

295 INDEPENDENT RESEARCH

Staff

Advanced independent study on selected topics in philosophy. Permission of the Chairman required.

PHYSICAL EDUCATION

Professor Cartmill and staff.

Graduation Requirement: Each student is required to demonstrate or attain proficiency in three individual sports and to participate in two team-oriented sports. Each student is encouraged and advised to complete in the freshman and sophomore years the proficiencies and courses designated. College equipment and facilities will be available to all students who wish to use them.

The requirement for three individual sports may be met by taking proficiency tests offered for those sports, completing physical education classes offered for those sports, or showing evidence of having attained proficiency in certain courses through an outside agency acceptable to the department. For example, intermediate swimming completed in any standard American National Red Cross class would be acceptable. Individual and dual sports include beginning and intermediate swimming, Red Cross First Aid, ballet, modern, folk, and tap dance, weight training, canoeing, scuba diving, sailing, water-skiing, fencing, golf, bowling, snow skiing, ice skating, squash racquets, racquet ball, tennis, badminton, jogging, archery, physical conditioning, rappelling, marksmanship, cycling, self-defense, and horseback riding.

The requirement for two team sports may be met by participation on two different intercollegiate teams sponsored by the athletic department, or by taking physical education classes in two different team sports, or by a combination of the two. In addition, one of the two team sports required may be satisfied by participation on an intramural team or a club sports team. Intramural team sports include flickerball, volleyball, basketball, and softball. Club sports include rugby, soccer, tennis, horseback riding, football, lacrosse, and water polo. Physical education classes are offered in the following team sports: volleyball, basketball, soccer, softball, field hockey, and lacrosse.

A student may design an independent study project to fulfill one of the five proficiencies required in physical education. However, it is necessary to have prior permission of the Director of Physical Education to ensure credit for such projects.

A student may be excused from the physical education requirements for medical reasons.

The Department of Physical Education determines proficiency levels for each activity and sport. A number of sports activities, including horseback riding, ice skating, snow skiing, bowling, water-skiing, and scuba diving, are offered at facilities away from the campus. An extra charge will be made for these activities. In addition, service classes in advanced life saving, water safety instruction, and Red Cross First Aid are available for students who need certification for summer employment as camp counselors and waterfront directors. Details are available in the Department of Physical Education.

PHYSICS

Professor White. Associate Professors Frey, Manning, Wolf. Assistant Professor Cain.

Area Requirement: Any course in physics numbered above 20 may be counted toward the fulfillment of the area requirement in Natural Science and Mathematics.

Major Requirements: Physics 121, 126, 131, 134, 142, 301, and 401, and two courses in chemistry (preferably 31, 41 or higher). Mathematics 25, 26, and 27 or 137 are prerequisites. (In addition, a student planning a career in physics should also take as many as possible of Physics 143, 145, and 146; and mathematics courses beyond those listed as requisites. He should also acquire a reading knowledge of one or more of German, Russian, and French.) A freshman considering a major in physics (or the 3-2 program in engineering, physical sequence) should, if at all possible, complete Physics 36 and its prerequisites no later than the spring term of his or her freshman year.

10 ELEMENTARY INDEPENDENT STUDY

Staff

Designed for non-physics majors who want to pursue some special interest in physics by independent study. The proposal must be approved in advance by the department chairman.

21 ENERGY

Mr. Wolf

This course is designed to help students satisfy the area requirement in natural science. The course deals with energy and the laws which govern its behavior, along with some of the technical, economic and social consequences of these laws. Lectures are supplemented by practical demonstrations and field trips. Not open to students who have prior credit for Physics 35 or its equivalent.

23 ASTRONOMY AND SPACE PHYSICS

Mr. Manning

A study of the universe, beginning with an examination of the earth. Stresses the techniques used by astronomers to build coherent and consistent models. Includes discussion of extraterrestrial life, pulsars and quasars, and modern cosmology. Primarily for non-science majors; no physics or mathematics beyond algebra and trigonometry required. *Not open to seniors.*

25 THE PHYSICS OF MUSIC

Mr. White

Same as Music 25. A study of the relationships between the esthetic response to music and the physics of the sound-generating instruments, of the sound waves themselves, and of the sound-detecting auditory mechanism. Some attention will be given to the unique characteristics of electronically generated music. Laboratory is not required, but laboratory facilities will be provided in which students can, on an optional, noncredit basis, explore in greater depth some of the phenomena studied and demonstrated during the course.

35,36 GENERAL PHYSICS

Staff

An introduction to mechanics, heat, sound, electricity and magnetism, optics, and modern physics. One laboratory period each week. (Note: The division of topics between the first and second terms is unconventional. Therefore, it is not usually possible to get transfer credit for only one of these courses taken elsewhere.) *Prerequisite, Mathematics 25.*

121 INTRODUCTION TO MODERN PHYSICS

Mr. Frey

Lecture and laboratory work related to modern developments in physics. Topics included are: atomic view of matter, electricity, and radiation; atomic models; relativity; x-rays; radioactivity; waves and particles; nuclear processes; and fundamental processes. One laboratory period each week. *Prerequisite, Physics 36.*

123 HEALTH PHYSICS

Mr. Frey

A study of the protection of individuals and populations from harmful effects of ionizing radiation such as x-rays, gamma rays, and nuclear particles. It is a practical and useful course which can be elected by pre-medical or pre-dental students as a part of their major requirements. Topics to be treated are atomic and nuclear properties of matter, the interaction of radiation with matter, radiation measurements, biological effects of radiation, and protection guides. One laboratory period each week. *Prerequisite, Physics 36.*

126 ELECTRICITY AND MAGNETISM

Mr. Cain

A study of electrostatics, magnetostatics, AC and DC circuits, and electromagnetic waves, with emphasis on the derivation and use of Maxwell's equations. *Prerequisite, Physics 36, and Mathematics 27 or 137.*

131 INTERMEDIATE MECHANICS

Mr. White

A study of kinematics, dynamics of particles, central forces and planetary motion, linear harmonic oscillators, energy, momentum, and mechanics of extended bodies. Simple vector treatment is used. *Prerequisite, Physics 126 or permission of the instructor.*

134 STATISTICAL AND THERMAL PHYSICS

Mr. White

A study of the forms in which energy exists in physical systems and of the limitations on its conversion from one form to another. The approach is primarily statistical, and the conclusions of classical thermodynamics are deduced from statistical results. *Prerequisite, Physics 131 or permission of the instructor.*

135 ELECTRONICS

Mr. White

An introduction to instrumental electronics, with major emphasis on the uses of integrated-circuit components, both linear (mainly operational amplifiers) and nonlinear (logic gates, flip-flops, counters, etc.). Each student may devote the last two laboratory periods, if he wishes, to a project involving the design and breadboard assembly of some useful electronic instrument. One laboratory period each week. *Prerequisite, Physics 36.*

142 QUANTUM MECHANICS

Mr. White

An introductory course in quantum mechanics with applications to simple systems. *Prerequisite, Physics 131, or Chemistry 151 and permission of the instructor.*

143 QUANTUM MECHANICS II

Mr. Wolf

A continuation of Physics 142 including perturbation theory and applications to atomic, molecular, solid-state, and nuclear physics. *Prerequisite, Physics 142. Offered in alternate years. Not offered in 1981-82.*

145 ELECTROMAGNETIC THEORY

Mr. Wolf

A study of electromagnetic fields and waves, dealing with Maxwell's field equations and their consequences in electromagnetic radiation and optical phenomena. *Prerequisite, Physics 126. Offered in alternate years. Not offered in 1982-83.*

146 ADVANCED MECHANICS

Mr. Wolf

Theoretical approach to the motion of particles and rigid bodies, employing vector algebra, linear transformations, and Lagrange's and Hamilton's equations. *Prerequisite, Physics 131. Offered in alternate years. Not offered in 1981-82.*

202 SPECIAL TOPICS IN PHYSICS

Staff

Open to qualified students, with permission of the instructor.

295 INDEPENDENT STUDY

Staff

Open to students with substantial backgrounds in physics, with written, definitive permission of any supervising professor.

301 LABORATORY FOR JUNIORS

Staff

All junior physics majors must complete an approved series of projects in experimental physics and attend the departmental seminar.

401 SENIOR PROJECT

Staff

All senior physics majors must (1) pass a comprehensive examination covering the courses required for the major, (b) attend and present programs at the departmental seminar, and (c) complete an approved project in experimental physics.

POLITICAL SCIENCE

Professor Proctor. Assistant Professors Kazee, Ortmayer, Thornberry.

Area Requirement: Any course numbered below 200 may be counted toward the fulfillment of the area requirement in Social Science.

Major Requirements: Ten courses in Political Science, including:

(a) at least one course in each of the following areas:

1. Political Theory (Political Science 110-115)
2. American Politics (Political Science 121-136)
3. Comparative Politics (Political Science 140-158)
4. International Politics (Political Science 165-175)

(b) Political Science 201, normally taken in the Fall Term of the senior year.

(c) at least one seminar (Political Science 210-270)

Honors Requirements: A student who wishes to work for honors will develop an individual program in consultation with the chairman of the department. It must include two or more tutorials in the junior year, at least two seminars, and the preparation of a thesis during two terms of the senior year.

110 HISTORY OF POLITICAL THOUGHT

Staff

Analytical study of major political theorists from Plato to the modern era.

115 CONTEMPORARY POLITICAL IDEOLOGIES

Mr. Proctor

Attention will be given to liberal democracy, communism, anarchism, socialism, conservatism, fascism, and Third World ideologies.

121 CONGRESS AND THE PRESIDENCY

Mr. Kazee

A focus on Congress as a policy-making institution and its relationship to the Presidency.

123 THE ADMINISTRATIVE PROCESS

Mrs. Thornberry

The administrative process in public bureaucracies, including its structural and institutional characteristics, behavioral patterns and policy outputs.

125 PARTIES AND INTEREST GROUPS

Mr. Kazee

An analysis of the internal operation of parties and interest groups and their role in the American electoral and legislative processes.

127 URBAN POLITICS

Staff

An investigation into the making of public policy in metropolitan areas.

129 PUBLIC OPINION AND IDEOLOGY FORMATION

Mr. Kazee

A study of the formation, change, and measurement of political attitudes. *Not open to freshmen except with permission of instructor.*

135 CONSTITUTIONAL LAW

Mrs. Thornberry

The development and interpretation of the Constitution of the United States through analysis of the decisions of the Supreme Court.

136 CIVIL LIBERTIES

Mrs. Thornberry

An analysis of Constitutional guarantees of civil liberties in the United States with special focus on the Bill of Rights and the 14th Amendment.

140 WEST EUROPEAN POLITICS

Mr. Ortmayer

A comparative analysis of the political culture, party systems, political economy, and foreign policies of France, West Germany, the United Kingdom and other selected West European states.

145 SOVIET AND EAST EUROPEAN POLITICS

Mr. Ortmayer

A survey of the origin, development, and current status of communism in the Soviet Union and selected East European states.

146 CHINESE POLITICS	Staff
Background and dynamics of Chinese communism in the context of modernization, internal competition, and new patterns of foreign relations.	
156 POLITICS OF SOUTH ASIA	Staff
A study of political institutions and behavior particularly in India, Pakistan, and Bangladesh.	
158 AFRICAN POLITICAL SYSTEMS	Mr. Proctor
A comparative study of the government and politics of the new states of sub-Saharan Africa.	
165 INTERNATIONAL POLITICS	Mr. Ortmayer
Structures and processes of conflict and cooperation in a rapidly changing world environment.	
167 INTERNATIONAL LAW AND ORGANIZATION	Staff
The nature and role of international law, the operations of the United Nations and selected regional and functional organizations.	
172 FOREIGN POLICIES OF AFRICAN STATES	Mr. Proctor
The relations of African states with each other and with the rest of the world.	
175 AMERICAN FOREIGN POLICY	Mr. Ortmayer
The foreign policy making process, the conduct of foreign relations, analysis of current issues and future challenges and prospects.	
201 POLITICAL ANALYSIS	Mrs. Thornberry
A critical study of the analytical approaches and research methods used by contemporary political scientists. <i>Prerequisite, permission of instructor.</i>	

Seminars

Reading, research papers and discussion in the area of each seminar. *Prerequisite: permission of instructor.*

210 SEMINAR IN POLITICAL THEORY	Staff
230 SEMINAR IN AMERICAN POLITICS	Staff
250 SEMINAR IN COMPARATIVE POLITICS	Mr. Proctor
270 SEMINAR IN INTERNATIONAL POLITICS	Mr. Ortmayer
290, 291, 292 TUTORIAL IN POLITICAL SCIENCE	Staff
Individual programs of supervised study in selected areas of Political Science.	
295, 296, 297 INDEPENDENT STUDY IN POLITICAL SCIENCE	Staff
Research leading to the submission of a major paper.	

PREMEDICAL

Professor Fredericksen, Chairman.

The premedical major consists of Biology 31, 32, Chemistry 31, 41, 101, 102, Mathematics 25, Physics 35, 36, Premedicine 295, 297, and four additional 101-199 courses in Biology, Chemistry, and Physics. Premedical majors are encouraged to complete most of their major requirements by the end of their junior year, to use their curriculum flexibility to study further in some area of the sciences or humanities, and to plan toward group or independent study in their senior year. Participation in a premedical colloquium is expected.

295 PREMEDICINE FOR JUNIORS

Options include courses of research, specialized study, or field application. Usually these options are taken in biology, chemistry, physics, and allied health sciences but these options may be taken in any discipline at Davidson provided the Premedical Chairman agrees that there is a legitimate connection between the option and medicine or other allied health sciences. An additional option may be a regular course provided it is related to the premedical major. All proposals require approval in advance by the appropriate instructor and the Premedical Chairman. Grading for this course will be pass-fail. The usual student initiative for pass-fail registration is not needed.

297 PREMEDICINE FOR SENIORS

Same general options as those for 295. All proposals require approval in advance by the appropriate instructor and the Premedical Chairman. Students are encouraged to select a different option in Premedicine 297 than the one used in Premedicine 295. Grading for this course will be pass-fail. The usual student initiative for pass-fail registration is not needed.

PSYCHOLOGY

Professors Burts, Kelton. Associate Professor Palmer. Assistant Professors Ault, Brockway, Kello, Kennedy.

Area Requirement: Psychology 101, 102, 132, 141, 154 are courses which may be counted toward fulfillment of the area requirement in Social Science.

Note on Prerequisites: Occasionally, under extraordinary circumstances, the department may waive a specific prerequisite for a particular course.

Major Requirements: Psychology 101, 102, 110, 111 or 112, 401, and five additional courses in psychology, at least one of which must be at the 200-249 level.

Honors Requirements: The departmental honors program encourages the attainment of excellence through directed individual study and research. To qualify for "Honors in Psychology" a student must:

1. complete twelve courses in psychology including:
 - a) 101, 102, 110, 111, 112 and two additional 100-level courses
 - b) 401
 - c) one course at the 200-249 level
 - d) 299 (senior thesis) and two other 200-level courses
2. receive the recommendation of the department.

Completion of the courses listed above will not guarantee this recommendation. The student's work must convince the psychology staff that the work is of a superior quality. Evidence for such superior quality may consist of generally high degrees of proficiency or exceptional creativity in papers and projects.

101 GENERAL PSYCHOLOGY

Staff

A survey of the current psychology of learning, perception, motivation, intelligence, and thinking, with emphasis on the application of scientific method to psychological investigation and on the biological bases of behavior and experience.

102 INTRODUCTION TO PERSONALITY

Staff

An introduction to the study of personality with emphasis on psychoanalytic, behavioral, phenomenological and existential approaches. *Prerequisite, Psychology 101.*

110 PSYCHOLOGICAL RESEARCH - DESIGN AND ANALYSIS

Mr. Kelton

A study of the nature of psychological research including research design, descriptive statistics, inferential statistics with emphasis on Analysis of Variance, use of library resources, and report writing. *Prerequisite, Psychology 101. Recommended in the junior year for majors.*

111 PSYCHOLOGICAL RESEARCH

- SENSATION AND PERCEPTION

Mr. Brockway, Staff

Research methodology and findings in the fields of Sensation and Perception are examined in laboratory and lectures, emphasizing the relationships of structure and function in audition and vision. Additional attention devoted to the haptic system, gustation, olfaction, and integrated perceptual phenomena. *Prerequisite, Psychology 110. Recommended in the junior year for majors.*

112 PSYCHOLOGICAL RESEARCH

- LEARNING AND COGNITION

Mr. Brockway, Staff

Research methodology in the fields of Learning and Cognition are dealt with in laboratory and class. Historical, Classical and Operant paradigms are contrasted with Cognitive paradigms theoretically and experimentally. *Prerequisite, Psychology 110. Recommended in the junior year for majors.*

131 ABNORMAL PSYCHOLOGY

Mr. Kennedy

A study of the characteristics, etiology, and treatment of the major patterns of maladaptive behavior (anxiety disorders, depression, antisocial behavior, schizophrenia, etc.). Particular emphasis is placed on a diathesis-stress approach to causality and on psychological approaches to treatment. One or more field trips to mental health facilities. *Prerequisites, Psychology 101, 102.*

132 SOCIAL PSYCHOLOGY

Mr. Palmer

A study of social influence upon individual behavior. Topics covered include attitude formation and change, attitude measurement, conformity, communication processes and persuasion, prejudice, violence and helping behavior, cooperation-competition, group dimensions, person perception and attribution theory. *Prerequisites, Psychology 101 and 102, or consent of the instructor.*

141 HUMAN DEVELOPMENT

Mrs. Ault

Same as Education 141. Individual development of normal children and adolescents, with emphasis on learning, social and emotional development, cognitive and language development. Special study of behavioral, social learning, cognitive, and information processing theories of development. Includes observations at local day-care centers or schools. *Prerequisite, Psychology 101.*

146 PSYCHOLOGICAL MEASUREMENT

Mr. Kelton

Same as Education 146. Theory and techniques of psychological measurement. Attention is given to measurement of intelligence, academic achievement, interests and attitudes, and personality. *Prerequisite, Psychology 101 and Psychology 110 or Mathematics 23.*

154 BUSINESS AND INDUSTRIAL PSYCHOLOGY

Mr. Burts

Selection of personnel, training, efficiency, and human relations. *Prerequisite, Psychology 101.*

161 SYSTEMS OF PSYCHOLOGY

Mr. Kelton

An introduction to the development of contemporary psychological theory. Includes the historical development of Structuralism, Functionalism, Behaviorism, Gestalt Psychology, and Psychoanalysis. *Prerequisite, Psychology 101 and one additional course in psychology.*

167 PHYSIOLOGICAL PSYCHOLOGY

Staff

A survey of the role of the nervous system in behavior and experience. Topics covered include basic structure and function of the nervous system, sensory and motor mechanism, physiological bases of motivation and emotion, sleep and arousal, and physiological bases of learning, memory, and language. *Prerequisite, permission of instructor based upon reasonable background in psychology or biology.* Relevant courses include Psy 101, 111, 112, and Biology 31, 32. *Offered in alternate years beginning 1979-80.*

195 INDEPENDENT STUDY

Staff

Directed study in an area of psychology not covered by other catalog offerings. Student must submit proposal for such a study early enough to allow for evaluation of adequacy of the proposal and of the student's preparation for undertaking the study. *Written* plan of study in final form must be accepted by the supervising faculty member and filed with the department chairman prior to the close of Add-Drop in the term of registration. *Prerequisite, Psy 101 or equivalent, permission of supervising instructor.* This course does *not* count toward fulfillment of major or area requirements.

202 SEMINAR ON PERSONALITY

Mr. Kennedy

A critical study of major theories of the development, organization, and dynamics of personality. Emphasis is placed on individual bibliographic research and sharing of one's findings with the seminar. *Prerequisite, Psychology 101, 102, 131, 132, and consent of instructor.*

212-220 ADVANCED SEMINAR IN EXPERIMENTAL PSYCHOLOGY

Staff

Topics announced in advance of registration. *Prerequisite, Psychology 111 or 112 or consent of instructor.*

231 ADVANCED ABNORMAL PSYCHOLOGY

Mr. Kennedy

Regular visits to a mental hospital with provision for continued interactions with patients, observation of various activities of staff members, and participation in therapeutic programs. Systematic study of a special topic in psychopathology or psychotherapy. Written reports, including a term paper on a topic related to the problems and activities of a mental hospital. *Prerequisite, Psychology 131 and consent of instructor.*

DAVIDSON-BROUGHTON SUMMER PROGRAM

Mr. Kennedy

Each summer the department offers a modification of Psychology 131 and Psychology 231 during an eight-week period, with the students living and working at the state mental hospital in Morganton, N.C. There the students come into direct personal relationships with patients and staff members while studying with one of our faculty members. Credit for Psychology 131 and 231. *Prerequisite, Psychology 101, 102, and consent of instructor.* Inquiries may be directed to Davidson-Broughton Summer Psychology Program, Davidson College.

241 STUDY OF SPECIAL CHILDREN

Staff

Based upon independent study conducted with children in centers such as Western Carolina Center or North Carolina School for the Deaf. Involves intensive reading and research on a special problem related to these programs, work with the young people in a variety of activities, and the keeping of a journal on the work done. Each student is required to spend 10 days of approximately eight hours each at the center during the term, one day each week for ten weeks. *Prerequisite, permission of the instructor.*

251 TUTORIAL

Staff

Intensive readings in a specific area; periodic conferences with supervisor and staff; written report, one copy of which shall be the property of the department. Open ordinarily only to advanced majors in psychology. *Prerequisite, permission of a staff member as supervisor and consent of staff; formal, written application in advance of registration; the application must state the delimited area in which the student plans to work, must include the beginnings of a bibliography, and must present evidence of sufficient background knowledge to assure readiness for the undertaking.*

252-255 TUTORIAL

299 SENIOR THESIS

Staff

An empirical study, designed and conducted by the student, supervised by a member of the staff, and reported in writing according to the form approved in the *Publications Manual* of the American Psychological Association. Periodic conferences with supervisor and staff. *Prerequisite, formal presentation of a planned research program, permission of a staff member as supervisor, and consent of staff.*

301 PRACTICUM IN PSYCHOLOGY

Staff

Field work and/or data collection, combined with reading on a special topic; periodic conferences with field supervisor and faculty sponsor; written or oral report. *Prerequisite, permission of faculty member as sponsor; formal written application in advance of registration, stating the delimited area in which the student plans to work and including the beginnings of a bibliography. Grading for this course will be pass-fail unless special exceptions are sought. The usual student initiative for pass-fail registration is not needed.*

401 SENIOR COMPREHENSIVE

Staff

All senior majors must register for Psy 401 in the winter term. The Psy 401 sequence consists of three parts: 1) The Senior Seminar in Central Issues in Psychology, which culminates in the departmental comprehensive essay examination; 2) The GRE Advanced Psychology Test, and; 3) Conference with an outside examiner.

RELIGION

Professors Kaylor, Maloney, Polley, Rhodes.
Associate Professors Clark, McKelway.
Assistant Professor Brubaker.

Area Requirements for Religion and Philosophy: Three courses, at least two in religion. This requirement may be fulfilled in either of two ways: (a) Two courses in religion plus either one additional course in religion or a course in philosophy; (b) Humanities 111-112-113, 121-122-123 plus one course in religion or a course in philosophy. (Courses below the 100 level do not meet area requirements.)

Major Requirements: Ten courses in religion including at least two seminars and 298, and satisfactory performance on a comprehensive examination during the senior year covering the biblical field, Christian ethics, and theology. The successful completion of the two-year Humanities Program may count as two courses on the major. (Courses below the 100 level do not meet major requirements.)

Honors Requirements: Major requirements plus a senior honors tutorial and thesis with oral examination (REL 299).

11, 12 ELEMENTARY HEBREW

Mr. Polley

A study of the principles and structure of the Hebrew language, with translation of selected Old Testament passages. *Credit: two courses. Offered by request. Permission of instructor required.*

101 INTRODUCTION TO RELIGION

Mr. Brubaker

An introduction to the nature of the religious life. Emphasis will be placed on the distinctive character of religious experience, attitudes, and expressions. Reference will be made to both Eastern and Western religious traditions. *A course for freshmen and sophomores.*

102 FAITH OF ISRAEL

Staff

A study of the foundation of the Judaeo-Christian tradition through an examination of the faith of ancient Israel as expressed in Old Testament and intertestament literature. Not open to students electing Humanities 111-112-113, 121-122-123. *A course for freshmen and sophomores.*

103 NEW TESTAMENT FAITH

Staff

A study of the faith of the New Testament community as it is expressed in the Gospels, Acts, and selected Epistles. Not open to students electing Humanities 111-112-113, 121-122-123. *A course for freshmen and sophomores.*

104 HISTORY OF CHRISTIAN THOUGHT

Mr. Rhodes

An historical study of selected movements, men, and ideas that have contributed significantly to the development of the Christian tradition since the second century. *Not open to students electing Religion 105 or Humanities 111-112-113, 121-122-123.*

105 BASIC CHRISTIAN BELIEFS

Mr. McKelway

An introductory study of such fundamental Christian concepts as revelation, creation, God, Christ, human nature, the Church, and salvation. *Not open to students electing Religion 104.*

106 CHRISTIAN ETHICS

Mr. Maloney

An analytical study of the principles, history and current state of Christian ethical thought with special focus upon such selected contemporary problems as bio-medical ethics, ecology, politics, race and sex.

122 THE HEBREW PROPHETS

Mr. Polley

A study of the prophetic literature of the Old Testament in the setting of political and social conditions of the times.

131 THE LIFE AND TEACHING OF JESUS

Mr. Kaylor

An advanced study of the life and teaching of Jesus as presented in the Synoptic Gospels and in subsequent literature. *Recommended background: Humanities 112 or Religion 103.*

- 132 THE THEOLOGY OF PAUL Mr. Kaylor
A study of Pauline thought as presented in the New Testament and in subsequent literature.
- 142 THE REFORMATION Mr. McKelway
A study of the Reformation and Post-Reformation period with special emphasis on the lives and teachings of Martin Luther and John Calvin.
- 143 MODERN THEOLOGY Mr. McKelway
The development of modern theology from 1800 in the writings of Schleiermacher, Feuerbach, Ritschl, Kierkegaard, Barth, Bultmann, Tillich, and others, including such contemporary issues as existentialism, Christian anthropology, secularism, and the "death of God" movement. *Not open to freshmen.*
- 144 AMERICAN RELIGIOUS THOUGHT Mr. Rhodes
An historical study of selected movements, men, and ideas that have contributed significantly to the formation of the American religious tradition.
- 145 AMERICAN LITERATURE AND RELIGIOUS THOUGHT Mr. Rhodes
Same as English 145. A study of the religious thought of major American writers from the 17th century to the present. Emphasis on Edwards, Emerson, Hawthorne, Melville, and Faulkner. *An interdisciplinary course with Mr. Abbott.*
- 146 CHRISTIAN CLASSICS Mr. McKelway
Selected readings from the Early Church to the Modern Period of major works of Christian literature which reflect the meaning and interpretation of faith. *Not open to freshmen.*
- 148 MODERN CRITICISMS OF RELIGION Mr. McKelway
An examination of nineteenth- and twentieth-century critiques of religion along with typical religious responses to such criticisms. Writings of representative thinkers, including Feuerbach, Marx and Freud, will be examined. *Open to all classes, but freshmen require consent of the instructor.*
- 151 BIBLICAL ETHICS Mr. Maloney
A study of selected aspects of Hebrew, Judaic and early Christian ethical thought viewed in comparison with ethical concepts of ancient non-biblical cultures.
- 152 WAR AND CONSCIENCE Mr. Maloney
A study of attitudes toward war in the Western tradition with emphasis upon the concepts of holy war, just war, and pacifism. The causes of war, the significance of nuclear weapons, and the meaning of responsible citizenship will also be considered.
- 153 DEATH AND DYING Mr. Maloney
A study of Christian and non-Christian attitudes toward death and dying, of the implications of death and dying for Christian ethics, and of ways of humanizing the dying process.
- 161 CONTEMPORARY RELIGIONS IN THE UNITED STATES Mr. Polley
A study of the beliefs and practices of Judaism, Roman Catholicism, and Protestantism, with attention to the historical and sociological factors shaping religious pluralism in American society.
- 162 ANTI-SEMITISM AND THE HOLOCAUST Mr. Polley
A study of the religious dimensions of anti-semitism in the West from New Testament times to the present day. Special attention will be devoted to religion in the medieval ghetto, the Zionist movement, anti-semitism in Nazi Germany, the theological implications of the creation of the modern state of Israel, and contemporary holocaust literature.
- 163 CHRISTIANITY AND ART Mr. Clark
A study of selected religious themes as depicted in painting, sculpture and architecture from ancient to modern times.
- 172 COMPARATIVE RELIGION: CONCEPTIONS OF DIVINITY Mr. Brubaker

Associate Professor Ruth.

Assistant Professor Myers.

Instructors Dailey, Venturelli.

Area Requirement: All courses in Sociology and Anthropology except Sociology 116, 125, 201 and Anthropology 200 may be counted toward fulfillment of the area requirements for Social Sciences. However, Freshmen are encouraged to take courses numbered 101 through 104 rather than the more advanced courses.

Major Requirements: Ten courses in the department which must include Sociology 101, 116, 125, 201 and Anthropology 101. One other anthropology course and any other four courses in sociology and/or anthropology may be taken to fulfill the major requirements. All majors will be required to take the Graduate Record Examination advanced test in sociology as part of the Sociology 201 course.

Sociology

101 INTRODUCTORY SOCIOLOGY

Staff

An introduction to the scientific study of human society. The nature and meaning of culture, socialization, personality, social systems and social interaction.

102 SOCIAL DEVIANCE

Staff

A study of deviance in the modern world in the framework of the interactionist theories. Topics include drug addiction, alcoholism, sexual deviance and suicide.

103 SOCIAL PROBLEMS

Staff

A course designed to help understand the extent and effects of poverty on different categories of the population; past and present attempts to alleviate the problems and some suggested reforms.

104 SOCIETY AND THE INDIVIDUAL

Staff

An introduction to the study of the fundamental processes of social interaction. The course focuses on the individual and his beliefs, values, attitudes and socialization as well as interpersonal influence and the expectations of significant other persons in the social environment.

113 MINORITY GROUP PROBLEMS

Staff

An exploration of minority group problems derived from the American data and from selected examples of other multi-ethnic nations. The course will focus upon problems arising in the political and social milieu. Selected topics include, among others, the origins of minority group problems, consequences of stratification and techniques for reducing tensions and improving human relations.

114 RACE RELATIONS

Staff

An introduction to race relations in this country with special emphasis on black-white relations. Historical background of current beliefs and practices. Information concerning biological, cultural, and social conditions.

115 MARRIAGE AND FAMILY

Staff

A review of the family in various cultures and times; courtship, marriage and family adjustments in modern America.

116 INTRODUCTION TO METHODS IN SOCIAL RESEARCH

Staff

MAJOR SCHOLARSHIP PROGRAMS

The following funds contribute in a significant way to Davidson College and its students, enabling many students who otherwise could not afford it to receive a Davidson education. Despite the generosity of the individuals named below, each year the college provides additional financial assistance from general funds. Those interested in strengthening this scholarship program are invited to contact the college's president.

Details on how to apply for financial assistance are under "Admissions and Finance"; students should not apply for special scholarships by name.

HONOR

Samuel H. Bell Scholarships — Established by a substantial bequest from his daughter, Marcia Bell Mitchell. Dr. Bell, a member of the class of 1870, was a Presbyterian minister in Georgia and Pennsylvania.

Charles A. Dana Scholarships — Awarded to approximately 15 members of each of the three upper classes on the basis of academic proficiency, character and good citizenship, leadership potential, and participation in the college community.

Stella and Charles Guttman Scholarships — Provided by the Stella and Charles Guttman Foundation for juniors and seniors; preference to students contemplating graduate or professional study.

D. Grier Martin Scholarships — In memory of Davidson's former president, D. Grier Martin. Contributed by the J. M. Tull Foundation of Atlanta, preference is given to students from Georgia.

Charles F. Myers - Burlington Scholarships — Established by the Burlington Industries Foundation Inc. in honor of Charles F. Myers, Jr., Class of 1933, for many years the chief executive officer of Burlington Industries and a Davidson Trustee. For students who are exceptional in academic promise and in the qualities of character, personality and potential contribution to society so ably demonstrated by Mr. Myers.

W. Olin Puckett Honor Scholarships — Established in memory of one of Davidson's most distinguished professors. Dr. Puckett was professor of biology and head of Davidson's premedical program from 1946 until 1971. For junior and senior biology and pre-medicine majors, selected for academic excellence, financial need, character, integrity, compassion, and concern for the individual.

Lunsford Richardson Scholarships — Established in memory of Mr. Richardson, a member of the Class of 1914, by his son and four daughters.

Dr. and Mrs. Thomas F. Staley Scholarships — Restricted to ministerial candidates. Established by the late Thomas F. Staley, Class of 1927, and Mrs. Staley in memory of his parents.

W. M. and W. T. Thompson Scholarships — Restricted to ministers' sons and daughters. Established by Mrs. Jessie Ball DuPont.

MERIT AWARDS

Edward Crosland Stuart Scholarships — This independent scholarship program honors the memory of one of Davidson's most outstanding students. High school seniors are nominated for consideration for renewable annual awards in the amount of Davidson's comprehensive fee. The program is funded by the Edward C. Stuart Foundation and administered by the Director of The Edward Crosland Stuart Scholarship Program. See additional information under "Admission and Finance."

NCNB Scholarship Awards — Established by North Carolina National Bank to encourage scholars with an interest in business-related careers. See additional information under “Admission and Finance.”

The Virgil O. Roberson, Jr. Fund

Established in 1973 by family and friends. Mr. Roberson's sons attended Davidson: Virgil O. Roberson, III, and E. Earl Roberson, both Class of 1962.

The Vernon Fund

Established in 1981 by Mr. and Mrs. James H. Barnhardt of Charlotte in honor of Mr. and Mrs. Ben T. Vernon of Charlotte. Mr. Vernon is a 1950 graduate. Mr. Barnhardt is a Davidson Trustee.

HONORARIES

Phi Beta Kappa — The Davidson College Chapter of Phi Beta Kappa received its charter as Gamma of North Carolina from the United Chapters of Phi Beta Kappa on March 1, 1923. Phi Beta Kappa, established nationally in 1776 at the College of William and Mary, is the oldest of the American Greek-letter societies. Election to membership in Phi Beta Kappa is the highest recognition of excellence in scholarship that an undergraduate can achieve in the United States. During the more than fifty years of its existence at Davidson, Phi Beta Kappa has elected more than 800 students to membership in course. Students at Davidson who maintain a general average of 3.6 or above on courses counted by Phi Beta Kappa are ordinarily considered for election, which is by ballot of faculty members of Phi Beta Kappa. Election to membership, however, is not automatic on the attainment of a certain grade average. In accordance with the Constitution of the United Chapters, students elected to membership must have qualifications of "high scholarship, liberal culture, and good character." Not more than twelve and one-half percent of the senior class may be elected. Elections are held during the spring term and at commencement.

Omicron Delta Kappa — This national leadership society recognizes eminence in five phases of campus life: scholarship; athletics; social and religious activities; publications; and forensic, dramatics, music, and other cultural activities. O.D.K. has three purposes: (1) to recognize persons who have attained a high standard of efficiency in college and collegiate activities, and to inspire others to strive for conspicuous attainment along similar lines; (2) to bring together the most representative men and women in all phases of collegiate life and thus to mold the sentiment of the institution on questions of local and intercollegiate interest; and (3) to bring together members of the faculty and student body on a basis of mutual interest and understanding.

Omicron Delta Epsilon — The economics honorary society has as its objective the promotion of scholarly achievement in economics, fellowship among those in the profession, and understanding of key economic issues and problems.

Phi Eta Sigma — Recognizing outstanding scholastic achievement during the freshman year, Phi Eta Sigma is a national honorary freshman society for men and women.

Alpha Epsilon Delta — The Davidson chapter of this national honorary premedical fraternity is North Carolina Alpha.

Delta Phi Alpha — A nationally organized honorary fraternity that recognizes achievement in German. The society seeks to promote greater understanding of German life, culture, and language. Students are selected upon completion of German 20.

Alpha Phi Omega — This national service fraternity is composed of students who wish to carry through college days the ideal of service to college, community, and nation.

Alpha Psi Omega — A national honorary dramatic fraternity restricted to juniors and seniors who have demonstrated a particular interest in theater through participation in the college drama program.

Delta Sigma Rho — *Tau Kappa Alpha* — A national honorary forensic fraternity recognizing excellence in academic achievement, debating and public speaking.

Gamma Sigma Epsilon — A national fraternity recognizing excellence in chemistry. The chapter at Davidson, founded in 1919, is the mother chapter.

Scabbard and Blade — A national military honor society designed to recognize excellence in the study of military affairs and to promote interest in military education. Lifetime membership is by election as an outstanding ROTC student in the junior or senior year. The Davidson chapter, B Company, 5th Regiment, has been in continuous existence since 1923.

Sigma Delta Psi — An honorary athletic fraternity open to all students who can perform all 14 prescribed athletic feats.

Sigma Pi Sigma — The national Physics Honor Society. Founded in 1921, the chapter at Davidson is the mother chapter.

AWARDS

Alumni Medal — Awarded annually by the Alumni Association to the freshman who has made the highest average of his or her class in one of the degree programs.

Banks Bible Medal — Established in memory of the Reverend William Banks, former president of the trustees, it honors the senior who has completed four years of Bible with the highest distinction.

Vereen Bell Award — Established by friends and relatives of Vereen M. Bell, Class of 1932, it goes annually to the student who submits the best piece of creative writing.

Sandy Black Memorial Award — Established by Mrs. Sam Orr Black of Spartanburg, South Carolina, in memory of her first grandson, a member of the Class of 1966, this award is presented annually to the rising senior pre-medical student considered most outstanding in academic record, who also displays traits of character, personality, leadership and service which give promise of an outstanding contribution in the field of medicine.

The Bremer German Language Award — Established by C. Christopher Bremer, M.D. '60, for excellence in the study of the German language.

Agnes Sentelle Brown Award — Established by Dr. Mark Edgar Sentelle, professor and dean of students at Davidson College, in memory of his sister and presented annually to some worthy student above the freshman class who is chosen for outstanding promise as indicated by character, personality, intellectual ability, and scholarship.

The Jefferson Davis Award — Established by a friend of the college to honor the memory of Jefferson Davis, the award is presented annually to a deserving student interested in and excelling in the study of Constitutional Law.

Department of The Army Superior Cadet Award — Awarded annually by the Department of the Army to the outstanding cadet in each year's group of Military Science. Award is based upon scholastic excellence and demonstrated leadership ability.

Gladstone Memorial Award — Established by the family and friends of George L. Gladstone, Jr., Class of 1960, this award is made each year to a rising senior who has exhibited high potential for future service to mankind as indicated by leadership at Davidson and elsewhere, service to the college and community, and academic record.

Henry and Claire Goodwin Award — Established by Mr. Goodwin of the Class of 1930 and funded in part by the Exxon Educational Foundation, this award goes annually to a junior or senior adjudged to exemplify the highest standards of character, good sportsmanship, and consideration for others.

Greek Prize — Presented by the Class of 1922, books are given to the student who shows the greatest ability and promise in the study of Greek. It is not necessarily awarded annually.

R. Windley Hall Fund — A freshman writing award, which also provides for a visiting lecturer on campus, honors the memory of a member of the Class of 1963.

Hay Bible Medal — The medal provided for by three sons in honor of their mother, Mrs. F. J. Hay, Sr., is awarded to the freshman who makes the highest grade in Bible in his or her freshman year.

Howard Chemistry Award — Established by Mrs. David H. Howard of Lynchburg, Virginia, in memory of her son, David, Class of 1928, who died while a chemistry professor at Davidson in 1936, it is awarded to a rising senior studying chemistry who gives promise of the largest degree of usefulness in some field of service which requires a knowledge of chemistry.

The William G. McGavock Mathematics Award — Presented to the member of the senior class who has demonstrated the greatest promise and accomplishment in mathematics during his Davidson career, this award honors the memory of W. G. McGavock, longtime Professor of Mathematics and member of the Class of 1930.

Phifer Economics Award — Awarded annually to an upperclassman who has made a distinguished record in the study of economics. Established by Mrs. A. K. Phifer of Cleveland, North Carolina, in honor of her husband.

The Presser Award — Established by the Presser Foundation, this award honors an outstanding music major at the end of the student's junior year.

Charles Malone Richards Award — Established by family and friends of Dr. Richards, Davidson pastor and professor and member of the Class of 1892, this award honors a rising senior, ordinarily preparing for the ministry, who has made the most significant contribution to the religious life of the College community.

Richard Ross Memorial Music Award — Given to a graduating senior music major who during four years of study has demonstrated the greatest achievement in the three areas for which Ross was known: musical artistry, academic excellence, and Christian character.

William M. Scruggs Memorial Fellowship in Communications — Provided by the family and friends of a Davidson graduate of 1949, this fellowship is awarded to an undergraduate who qualifies as a part-time intern in the field of Communications with special reference to radio and television.)

Algernon Sydney Sullivan Award — In 1926 the New York Southern Society established at Davidson College and at several other institutions an award to be made annually in memory of its founder. Each year two medallions are presented, one to a member of the senior class and the other to a person outside the student body. These awards recognize fine spiritual qualities practically applied to daily living, and have usually gone to persons who have given unselfish service without due recognition.

The James Baker Woods, III Memorial Award — Established by Dr. and Mrs. James B. Woods, Jr., in memory of their son who gave his life in defense of his country. This cash award is presented to a rising senior cadet who has displayed outstanding qualities of leadership, high moral character, noteworthy academic achievement, and exceptional aptitude for military service.

Daniel Blain Woods Award — Established by Dr. and Mrs. James B. Woods, Jr., this award is given to the rising senior premedical student who best exhibits the qualities of a good doctor: wisdom, compassion, the desire to serve, the ability to analyze problems, integrity, and academic excellence.

ATHLETIC SCHOLARSHIPS AND AWARDS
